JAMES S. SHERMAN RECEIVING NOTIFICATION OF HIS NOMINATION.

TRIAL OF HAINS BROTHERS PUSHED

Wife of Captain Hains Had Sought Divorce.

Claimed She Was Cruelly Beaten by Husband.

NEW YORK, Aug. 19.—It is probable that the Hains brothers will be placed on trial for the killing of William E. Annis early in October. The district attorney of Queens county will today apply to the governor for the assignment of a supreme court justice to sit in extraordinary session. After his appointment the justice will call a special grand jury and the remaining preliminary steps will be pushed with all possible haste.

A possible motive for the killing of Annis may be found in the fact that Mrs. Peter C. Hains had filed a suit against her husband, the papers being served upon Captain Hains in New York August 10. The fact that a suit had been filed became known today. In her action Mrs. Hains makes sensational charges against her husband's character, and at the same time demanded in her petition that the case itself, an action for divorce be given public trial.

The information concerning the filing of the suit against Captain Hains by his wife was procured from Charles H. Libbey of Boston and Windhrop, father of Mrs. Hains, who has made the complaint as dictated to her lawyers by his daughter. It is believed that Captain Hains and his brother concluded that Mr. Annis was behind the bringing of the accusations, and that it was Annis who had suggested to Mrs. Hains that the only way she could clear herself was by demanding that the case be tried in open court.

In speaking of the case Mr. Libbey said that his daughter had been subjected to the greatest cruelty by Captain Hains and that she returned to her father's home June 2, a few days after she had been cruelly beaten and ill treated by her husband in the presence of his brother, Thornton. According to Mr. Libbey, Captain Hains attacked his wife at Fort Hamilton last May, and as a result of the beating he is alleged to have given her, medical aid had to be called in, her body having been covered with cuts and bruises.

Mrs. Hains and her mother are still in New York and are not expected in Winthrop for several days. Their intention is to secure the control of the three children of Captain and Mrs. Hains, and it is expected that unless the children are given up voluntarily that-ess corpus proceedings will be started at once, in order that the children may be restored to the mother and brought to Winthrop.

Frederick E. Norton, counsel for Mrs. Peter C. Hains, Jr., upon his return from New York today, in an interview said, "It is true that the husband of my client entered a libel for divorce against her, and named as co-respondent the man who is now dead, Wells. Mrs. Hains returned here June 1 she made no answer or counter-claim, although cruel and abusive treatment on the part of her husband." Mr. Norton refused to discuss the evidence filed or to say further upon the matter.

GUARD FOR HAINS FAMILY.

Annoyed by Unwelcome Visitors at Their Quarters at Fort Hancock.

NEW YORK, Aug. 19.—A special guard was today placed over the quarters at Fort Hancock Hancock, South Beach, which are occupied by General P. C. Hains and the children of Captain P. C. Hains, Jr., who shot and killed William E. Annis Saturday. The guard was ordered by the commanding officer of the fort, on the complaint that especially during Gen. Hains' visit to the family had been greatly annoyed by unwelcome visitors, including a number of photographers who have been lurking about

LATEST NAVAL NEWS.

Orders to Officers and Movements of Vessels Reported.

(Special despatch to the News.)

WASHINGTON, Aug. 19.—The following orders to officers were announced by the Navy Department today:

Ensign O. C. F. Dodge, detached from the Whipple and to continue treatment at the Naval hospital at Mare Island, Cal.

Ensign A. C. Pickens, detached from Schenectady, N. Y. and ordered to the proving grounds at Indian Head, Md.

Ensign C. N. Shaw, detached from the Fox and ordered to the Whipple.

Pay Inspector E. D. Ryan, ordered to take charge of the pay office at Seattle, Wash.

Paymaster R. H. Orr, detached from charge of the pay office at Seattle, Wash., ordered to settle accounts and await orders.

Chief Gunner J. Donald, detached from the Maryland and ordered home with leave of one month.

Midshipman E. R. Leonard, detached from the California and ordered to the Fox.

Midshipman J. W. Dubose, detached from the Naval Academy and ordered to the North Carolina.

Midshipman J. O. Hunsaker and E. L. Hill, detached from the North Carolina and ordered to report to the commander-in-chief of the Pacific fleet.

The following movements of naval vessels were reported today by the department.

Arrived—Nero at Bradford, West Virginia and Maryland at California City, Scorpion at Guantanamo, Prairie at New York, Chester at Bradford.

Sailed—Rocket, from Washington for Norfolk; Wolverine, from Harbor Springs for Muskegon; Mississippi, from Provincetown for Bar Harobr.

LORD NORTHCOTE'S MESSAGE.

Governor General of Australia Sends Welcome by Wireless to Sperry.

SYDNEY, New South Wales, Aug. 19.—Lord Northcote, governor general of Australia, has sent by wireless telegraph to Admiral Sperry, commanding the American battleship fleet, the following message: "On behalf of the commonwealth of Australia I tender from the whole of its people a hearty welcome to the the American fleet, which represents so magnificently our friends and kinsmen of the United States. I hope you have had a good voyage from New Zealand. On your arrival here you will receive an enthusiastic greeting from this part of his Majesty's empire."

The following answer has been received by wireless from Admiral Sperry: "To Lord Northcote, the governor General of Australia. On behalf of the government of the United States and the Atlantic fleet I thank you most heartily, and through you the people of the commonwealth of Australia, for your gracious message of welcome to the American fleet, the officers and men of which are looking forward with the most pleasurable anticipations to making the acquaintance of their kinsmen residing in this great member of the British empire."

ARRIVAL OF THE MONTANA.

Battleship to Go to Rockland to Standardize Her Propellers.

ROCKLAND, Me., Aug. 19.—First class battle-ship Montana, which has been on a cruise from Norfolk, Va., since August 6, arrived here today and will standardize her propellers on the Rockland course tomorrow. Battleship will go to Frenchman's Bay for coal before returning to the Norfolk navy yard. Captain Alfred Reynolds is in command.

THAW NOT NEEDED.

Will Not Go to Pittsburg to First Meeting of His Creditors.

PITTSBURG, Aug. 19.—After a conference between ex-Governor Stone, counsel for Harry K. Thaw, and Boyer O'Mara, his receiver in bankruptcy, it has been decided that the presence of Thaw at the next meeting of his creditors, to be held here September 7, will not be required. The date of his appearance here, if his presence should be required later, will depend on future developments.

TROOPS LEAVE SPRINGFIELD.

Force of National Guard Reduced to 1,500.

Outbreaks Few and Conditions Becoming Normal.

SPRINGFIELD, Ill., Aug. 19.—With the departure of two regiments of infantry and the beginning of the special grand jury's investigation of the recent riots, this city today saw the first steps taken toward a resumption of normal conditions. The First and Fourth regiments, which together with the Eighth are scheduled to participate in the regular manoeuvres at Fort Benjamin Harrison, Indianapolis, early next month, were the organizations to begin the evacuation of the capital. The Third and Fifth regiments, in addition to the First and Fourth, which left today, will leave for their homes tomorrow, reducing the force of the national guard on duty here to about 1,500 men. Riots are still threatening in certain portions of the town and it is practically certain that part of the troops here, probably the cavalry, will be retained in the service of the state for some time.

The First infantry left on the Chicago & Alton at 10 o'clock today. This avoids Kankakee, where one of the members of the regiment bayoneted Earl Nelson while the command was en route to Springfield. No official of the state was willing to acknowledge that the change in route had been made because of the trouble here, but it was broadly hinted that this was one of the determining factors in the selection of the route to be traveled.

There was no violence of importance in Springfield last night, the disturbances being limited to vandalism and several hot fights. In one of these a small crowd of white men and boys set upon a negro and beat him severely. He managed to break away and is said to have left the city.

News of the departure of the troops was carried into the so-called "Badlands" and into the respectable negro settlements, by an Associated Press correspondent. Some were excited by the tidings, some appeared hopeless and weary of the struggle, and others declared their intention of leaving the city. With scarcely an exception they expressed the opinion that more trouble would follow the withdrawal of the national guardsmen.

Officers to whom the expressions of the negroes were reported said that such fears were almost groundless and due to the experience through which they had passed, rather than to actual conditions of the present. The force remaining, in conjunction with the deputies and police, will, they say, be ample to protect every law abiding citizen. The inquiry into the lynching of Scott Burton was brought before a coroners jury today. Most of the witnesses described the scenes in the "Black Belt," but when questioned as to the identity of members of the mob their memories failed them.

A counteracting effect to any further mob spirit is looked for from the special grand jury which indicted George Richardson for the alleged assault upon Mrs. Mabel Hallam, and which today began to consider the evidence against rioters. The appeals of Governor Deneen, the chamber of commerce, Ministers' Association and other bodies that citizens generally furnish information to the state's attorney concerning the riot, have met with such prompt responses that the authorities are encouraged in the belief that the better elements of the community are aroused to the danger which threatens them unless the mob spirit is quenched.

JAPANESE SPIES ARRESTED.

Provided With Plans of Russian Port, and Topographical Instruments.

ST. PETERSBURG, Aug. 19.—Vladivostock newspapers report the arrest of Japanese spies at Slavianskala, a port on Peter the Great bay, south of Vladivostock. The men arrested were provided with plans of the defenses of the port and topographical instruments, which were submitted to the military court.

JOHNSON'S DUTY TO RUN.

May Be Named by Democratic Convention Despite Refusal.

MINNEAPOLIS, Minn., Aug. 19.—Notwithstanding Governor John A. Johnson's repeated declaration that he would not be a candidate for renomination, which declaration has lately been coupled with the threat that if he was named against his will, the convention would have to do its work over again, the probabilities are that the Democratic state convention which assembled today, will ignore the governor's wishes. J. G. Arneson, mayor of Stillwater, and Congressman Hammond have both declined to be candidates. Mayor Arneson declares that it is the duty of Governor Johnson to make the race again.

BRYAN RECEIVES HIS MULE.

Minnesota Agricultural Society Sends Party's Mascot to "Fairview."

"FAIRVIEW," Lincoln, Neb., Aug. 19.—William J. Bryan today received from the Minnesota State Agricultural Society the long-expected trick mule which is to be the mascot of the party this fall. The mule arrived in Lincoln today and was taken out to "Fairview" by one of Mr. Bryan's men, where it was given a hearty welcome by the candidate and his family. "I am going to have a caucus of the newspaper correspondents to select a name for this mascot of mine," declared Mr. Bryan, as he led the animal about the lawn by a halter. "They tell me that it is the best trained mule in the United States and we will have to properly name it before the day is over."

Mr. Bryan denied himself to visitors during the morning, as he was anxious to complete his several set speeches prior to his departure for Des Moines tomorrow night. He explained that he will have all his time on the 10 days' trip fully occupied, and must have all the speeches ready before he starts. His book dealing on labor which is to be the feature of the Chicago Labor Day celebration.

ORIENTAL CARPETS, ROOM SIZE.

SILK KIMOMAS. MANDARIN COATS.

SHOT HIMSELF IN UTICA.

Rev. James Duane Phelps, Treasurer of Syracuse University, a Suicide.

UTICA, N. Y., Aug. 19.—Rev. James Duane Phelps of Syracuse, shot himself in his room in the Wurz Hotel on North Genesee street, this city, some time during last night. Mr. Phelps went to the hotel yesterday morning and secured a room in the third story. He was not seen again during the day or evening, and it is supposed that he killed himself about 2 o'clock this morning.

He left a note written on the paper which had been used to wrap the revolver in, and he gave as a reason for shooting that he did not wish to live any longer.

Rev. Mr. Phelps was treasurer of Syracuse University and he had been connected in the past with the Northern Christian Advocate. It is understood he had been ill and was for some time at a private sanitarium. The bullet was fired into his mouth and there is no mark or wound upon his body.

CORSETS!

We beg to call your attention to our large and varied assortment of Corsets. We carry all the leading and up-to-date makes, including W. B., C. B., P. N., P. D., F. P., Royal Worcester, Warner's, Thompson's Sahlin and the ever-popular REDUSO and LA VIDA.

We also carry Corset Waists and Underwaists, Ferris Waists, The Double Ve Waist, Little Beauty and E. Z. Waists for children.

A Lot of W. B. and P. N. $1 Corsets, Special 68c.

At $1.50 we have many different models to suit all figures.

For stout women we have the famous W. B. Reduso. The large demand for this corset by stout ladies has proved to us its merit.

La Vida designs are models of artistic originality, giving the form that graceful, slender effect. They are made in batiste, coutil and silk, boned with selected whalebone and garters attached, from $5 up.

Tape Girdles with hose supporters attached, special 50c.

Madrasse Girdles, with Hamburg trimming, made of batiste and very light, Special $1.

Corset Shields, to prevent the corset from breaking 25c. a pair.

HESS-LEYS CO.

OLD COLONIAL ARCHITECTURE.

Suggestion of a Society, to Preserve Best Specimens for the Public Benefit.

To the Editor of the Daily News:

With the passing away of so fine an example of Colonial architecture as the Champlin-Pell house a sense of loss comes to one who is interested in the fine workmanship of earlier days, when building a house was a matter of honest and oftentimes beautiful labor. A fine house of the olden time which has stood staunch through the many changes in times, peoples and fashions acquires a subtle atmosphere peculiar to itself, just as one grande dame has a soft dignity not achieved by the younger dame.

In Providence the Pendleton house, adjoining the School of Design, is a copy of the old Waterman house. It is a beautiful copy of old-time methods in woodworking, but in the copy much of the charm of the old is lost, because to copy accurately is difficult, and there is a tendency to improve on the original with little changes or adaptations here and there, little in themselves but important in effect. In the house mentioned the rooms were made a little larger, the kitchen eliminated altogether, and the fascination of the veritable touch of the past is lost.

Newport has had many beautiful houses which if walls could talk would tell of long ago belles and beaux who helped to make the history of their time. In good preservation at the present day is one fine example of beautiful work on a house in which perhaps to install a bride (for one expects a legend of some kind about an old house), the house now owned by Mr. Arthur Greene. The detail of the low paneling in the rooms, the quaint mantels and stairway show infinite personal care. The same taste and skill are shown in the outside finish, making an example of Colonial architecture well worth studying.

Mr. P. H. Horgan owns another fine example, the Coe house, once occupied by a President of the United States, now the abode of aliens. It seems an irreparable loss for Newport to allow fine examples of old-time architecture to fall away from their grand estate and finally disappear. Could not a society be formed, a branch of the Historical perhaps, to take over the best specimen left to us, put it in repair, furnish it with gifts from interested old families, whose garrets must hold many a good piece of furniture used a generation ago, and open it to the public for inspection, inspiration and study? The fee charged could make it self-supporting, for all the world would be interested in a fine house in which Lafayette or some other historical personage had dined or supped in old-time Newport.

I. M. W.

Newport, August 18, 1908.

LAW ENFORCEMENT CONTRASTS.

Bowling Alley and Rifle Range Closed, But Illegal Sale of Liquor Permitted.

To the Editor of the Daily News:

Dear Sir: I noticed a news article in your paper Monday, referring to a small boy intoxicated on our public streets on Sunday. What a sad state of affairs that such a condition could exist, owing to illegal sale of liquor through the failure of our commissioners to enforce the laws! How many more times and in how many ways is it necessary to point out to them that the law is openly violated regarding the sale of liquor? What great hold have the dealers on them that they continue to ignore the fact and it is a fact they should know and regulate without any one being obliged to tell them about it. Would it not have been more wise if our Representative Council had elected men as commissioners who were not personal friends of some of our prominent dealers? Is it this friendship that stands in the way of the enforcement of the law? If so, our present commissioners should resign or be impeached for neglect of duty.

I cannot refrain from saying what a ridiculous pretence at the enforcement of the law was made when the bowling alley and rifle range were closed by our police department Sunday and the favored liquor dealers did the most thriving business of any Sunday this season. Ten different persons were actually counted in two hours very much intoxicated and roaming at will around our public streets. The crap room and roulette parlors run as usual, evidently with police protection. Ten croupiers are engaged nightly in the roulette room, taking in the money from the deluded players which should be going into legitimate channels. Some of our unsuccessful business men about town can lay their failure directly to this cause. I am not convinced that we shall not be obliged to appeal to the state officials to rid ourselves of these pests. It has been stated many times that we were able to govern ourselves. Are we? Our mayor, police department and license commissioners could work a power of good in our community if they would do their duty.

Morality.

Newport, R. I., August 18, 1908.

MR. PRINCE MUCH IMPROVED.

Mr. Frederick H. Prince, the Boston banker who was injured by being thrown from the saddle while horseback riding back of the Myopia Hunt Club grounds in the Brown's Hill section of Hamilton, August 6, is able to sit up at his summer home, "Princemere," on the Beverly Farms road at Wenham Neck. His injuries were at first feared to be serious, but the physicians' examination disproved this theory, and the improvement in his condition has been steady. It is announced that Mr. Prince probably will be able to go out by the latter part of the week.

GOETHALS TO REPORT.

Lieutenant Colonel George W. Goethals, U. S. A., chief engineer of the Panama Canal, will come to Washington about the middle of next month to confer with Luke E. Wright, Secretary of War, on the canal report to be made to the next Congress. It is understood that Colonel Goethals' report will contain a surprise as to the short length of time necessary to complete the canal and the reduced amount of money estimated for its completion. It has been said by officials returning from the Isthmus that the excavation will be completed within four years and the building of locks and dams so well forward at that time that the canal will be completed shortly after.

Colonel Goethals, it is expected, will also visit President Roosevelt at Oyster Bay. He will return to the canal zone about November 1 and be prepared to meet the Congressional committee prior to the assembling of Congress.

DEATH OF MRS. WILSON.

Mrs. James H. Wilson, who died at her home on Mann avenue yesterday, had been a patient sufferer for the past three years, but was ready to help in all good works. She was a member of the Woman's Auxiliary of the Young Men's Christian Association and of the Second Baptist Church, in both of which she took a great interest. She leaves one son and three daughters, Fred Wilson, Mrs. Clara Sanford, Miss Edna Wilson and Miss Mary Wilson, a sister, Mrs. Charles E. Ash, and two brothers.

CHAFIN ACCEPTS THE NOMINATION

Triumph of Party History's Brightest Chapter.

Prohibitionist Candidate Received With Cheers.

CHICAGO, Aug. 18.—"While not a line of history will be changed by the election of a Republican or Democrat, the triumph of the Prohibition party and the placing of its platform in the constitution will write the longest, brightest, purest and most beneficial chapter of history that has marked the progress of civilization since governments were instituted among men." In these words, at Music hall this evening, in the presence of a large and enthusiastic audience, Eugene W. Chafin of Chicago accepted the nomination for the Presidency by the Prohibition party.

Professor Charles Scanlon of Pittsburg, on behalf of the committee appointed at the national convention in Columbus, Ohio, July 16, in formally notifying Mr. Chafin of his selection as the party's standard bearer, declared that "in the divorce records, as numerous as they are shameful, in crowded asylums and orphanages and almshouses and prisons, in municipal graft and political corruption, in timid pastors and tippling people, in the groans of fathers and the grief of mothers, in the pleading of wives and the woes of little children, in the calls of the church and the claims of patriotism, the Prohibitionist hears the divine command to go forth in defense of the oppressed for the redemption of this nation."

Seated on the platform were the national executive committeemen, chairmen of the various state committees, the committee on notification and many other prominent Prohibitionists.

Charles R. Jones, chairman of the national committee, called the meeting to order and announced the selection of Samuel Dickie, president of Albion College, Albion, Mich., as chairman of the gathering. Mr. Dickie delivered a brief address and then introduced Professor Scanlon, who was greeted with applause as he began his notifying address, and throughout his speech was interrupted by evidence of approval of his remarks.

"You are not asked," said Mr. Scanlon, turning to Mr. Chafin, who occupied a seat on the platform, "to lead a forlorn hope! The final issue of the struggle is not now or ever has been in doubt. The principles advocated by the Prohibition party are as certain to prevail as time is to continue."

Mr. Chafin, whose acceptance speech was vigorously applauded, said:

On the fourth of March, 1909, our national government will have completed its one hundred and twentieth year of constitutional history. During that time 25 men have occupied the Presidential office. All have been men of high distinction, and a few of them of eminent ability. For the first time since the death of Washington, December 14, 1799, we are without a living ex-President. When Lincoln took the oath of office five former Presidents were living—the greatest number in our history. They did nothing to help him in his great struggle which resulted in the passage of the thirteenth amendment to the constitution, which marked a higher standard of Christian civilization. They were the representatives of two dominant political parties, Whig and Democratic, which for about 50 years opposed the bringing of any great new question into the political arena.

We are now approaching the close of another 50 years, where two dominant political parties, Republican and Democratic, have allied themselves with the most gigantic crime ever cursed the world, and by their attitude make known to the American people that they do not propose to permit them to have a chance, even though the majority may favor it, to destroy the liquor traffic and add another amendment to the constitution, which would mark the highest achievement of civilization in the world's history.

Twenty-seven Presidential campaigns have been more or less fiercely fought to gain control of the government. Most of them have been battles over fictitious issues which had little or nothing to do with the administrations which followed. In not more than six instances would a line of American history have been changed if the defeated candidate had been elected instead of the successful one. This party strife over false issues for the sake of obtaining office has made moral cowards of many of our public men, and transformed some of our chief executives into mere pawns upon the party chessboard; for no man lives in history and in the hearts of the people who does not stand for the highest moral sentiment of his day.

The makers of the federal constitution wisely provided that once in four years the people should have an opportunity, through the election of a President and a House of Representatives, to record the advance made in morals and adopt new and necessary methods of government. If one or more political parties are to be kept in power, 25 or 50 years, each succeeding administration carrying out the policy of the past and refusing to enact into law the progress attained, then such party or parties have violated the very spirit of the constitution and turned our Democracy into despotism, making the political boss dictator.

We are dangerously near that condition of things in the pending Presidential campaign. The attempt made by the Republican and Democratic parties to create a fictitious issue is the most farcical in our history, in the face of the fact that during the past four years the question of the prohibition of the liquor traffic has attracted wider attention of the press and the people than all other public issues combined. The calm thought and common sense of the moral citizenship have pronounced sentence of death upon the liquor traffic, and the only thing that stays its execution is the protection and care of these two old political parties, kept alive by blind political party prejudice.

We were warned against this condition of things by the father of our country, George Washington, the greatest constructive statesman the world has produced. In his Farewell Address, September 17, 1796, speaking on this subject he said:

"All obstructions to the execution of the laws, all combinations and associations, under whatever plausible character, with the real design to direct, control, counteract or awe the regular deliberations and action of the constituted authorities, are destructive of this fundamental principle and of fatal tendency. They serve to organize faction, to give it an artificial and extraordinary force; to put in the place of the delegated will of the nation the will of a party, often a small but enterprising minority of the community; and according to the

Continued on Sixth Page.

MRS. JOHN W. KERN.

Mrs. John W. Kern of Indianapolis, wife of the Democratic nominee for vice president, appreciates the honor that has come to her husband, but says she would rather he had remained in private life, as she fears the effect of the campaign upon his health. She is prominent in the social circles of Indianapolis and takes much interest in philanthropic work, especially in doing for the children of the poor in kindergartens. She is Mr. Kern's second wife and has two boys, John Worth Kern, Jr., aged eight, and William Cooper Kern, Jr., aged four. Mrs. Kern is a woman of much culture and personal charm.

This Morning's News.

RACE WAR STRIKES MINES.

Whites in Springfield Refuse to Work Underground With Armed Negroes.

SPRINGFIELD, Ill.—Aug. 18.—The race war here assumed today a new phase, and striking into the coal mines caused much anxiety to the authorities. While a special grand jury, impanelled this morning, was hearing witnesses in the riot cases, and citizens were holding a mass meeting to consider steps to put and end permanently to the conflict which already has caused seven deaths and the wounding of scores, word came that white miners at the Woodside coal mine, a mile out of town, and the Tuxhorn mine, four miles distant, refused to work with negroes. The two mines employ about 500 men, about 150 of whom are colored.

The white miners went to Mr. Clark, president of the Springfield sub-district of the United Mine Workers, with the declaration that the negroes were armed and they did not feel safe in the underground darkness with them.

There are approximately 40 coal mines within a radius of 10 miles of Springfield. They employ altogether 5,650 or more men, about 10 per cent of whom are negroes. It is feared that if the trouble extends to them there may be even worse battles than any that have thus far been fought.

What is **Grain-O?**

Simply Pure Grain Coffee with all the poison, nerve wrecking elements left out. Made of solid grain, scientifically roasted and blended, it tastes and looks like the best coffee, but costs only one-half as much.

Delicious in flavor and aroma; there is not a headache in a barrel of it.

Grain-O is really the heart and soul of the grain,—liquid bread in fact.

It contains all the elements necessary to sustain life. Coffee tears you down.

Grain-O builds you up.

Remember

Grain-O costs only one-half as much as the best grades of Coffee.

DINNER FOR A HOT DAY.

Menu Consists of Appetizing Recipes Easy to Prepare.

Iced Fruits and Cream Should Be Prepared Early in the Day, So They May Be Thoroughly Chilled.

[Cornelia C. Bedford.]

Menu.
Iced Cantaloupes.
Beef a la Mode.
Mashed Potatoes Creamed Carrots
Tomato and Cress Salad.
Peach Ice Cream.
Coffee

The frozen fruit must be prepared early in the day. Scald a pint of milk in the double boiler, add a tablespoonful of flour mixed to a thin paste with cold milk, cover and cook for 20 minutes. Beat together three eggs, one cupful and a half of sugar and a pinch of salt, turn into the cooked milk and stir until slightly thickened, then strain and set away until cold. It may be a new idea to many to pulp fruit by passing it through the food chopper but,once tried, it will be found easier and quicker than the old method of mashing and rubbing through a sieve.

The peaches must first be pared, halved and the stones removed and two cupfuls of the pulp will be required. To properly pack a freezer worked with a crank adjust and clamp down the empty can. Have ready a quantity of ice broken in pieces smaller than a walnut; the salt grains should be as large as a small pea, when too coarse the freezing is more or less retarded. In the bottom of the freezing pail put a three inch layer of the ice round the can, add a third as much salt and alternate in this way until within three inches of the top of the can; occasionally turn the handle to make sure that the can revolves properly and easily. Lightly ram down the ice with a stick. To the chilled custard add a tablespoonful of vanilla and a few drops of almond extract, a pint of cream and the fruit pulp and turn into the freezer. Rotate the crank slowly at first then, as the cream freezes and thickens—which can be known by an increasing difficulty in turning the crank—work more rapidly until it is almost impossible to turn.

During the freezing add more ice and salt as may be necessary. Now open the top with care that no brine enters the can; take out the beater and with a strong spoon work the cream down in the freezer. Lay a sheet of paraffine paper over the top of the can and replace the cover, filling the hole left by the withdrawal of the beater with a cork. If the ice has melted considerably run off a portion of the brine—not too much—and repack, covering the top of the can with a thick layer of ice over which a little salt is sprinkled. Cover with a heavy piece of blanket, burlap or old carpet and set away in a cool place for two or three hours. This method of freezing will apply to all freezers with revolving beaters.

Select a good solid piece of beef from the rump or round weighing six to seven pounds. Mix together one teaspoonful of salt, one third of a teaspoonful of pepper, a half teaspoonful of allspice and a quarter of a teaspoonful of cloves. Cut a quarter of a pound of larding pork in half inch slices, then in strips and roll each in the spice. Make holes down through the meat with a narrow bladed knife or the end of the steel sharpener, push down in each one of the strips of pork and bind the meat tightly with a broad muslin bandage. Melt a spoonful of dripping in a deep kettle and when hot lay in the meat and brown on both sides. Pour in a cupful of boiling water, add a dash of salt and a tablespoonful of vinegar, a carrot cut in pieces, one or two onions and a bunch of pot herbs; cover closely and simmer very gently for from four to six hours. As it boils away add a little water from time to time, or some strained tomato may be substituted. Before serving remove the binding and strain the gravy, adding a little hot water if needed.

Potatoes should be pared and halved then boiled in salted water. Keep them boiling steadily until tender enough to be pierced with a fork then drain, shake for a moment and return the saucepan partly covered, to the side of the fire. Pour in a little milk at one side and in five minutes it will be hot; then use either a ricer or a wire or wooden masher to reduce all to a smooth creamy mass, adding salt and a small lump of butter. Whip until light, then they are ready to be turned into a heated dish.

Young carrots are delicious when properly cooked and are universally considered to be most healthful. Scrape them and let stand in cold water for a few minutes then boil in slightly salted water until tender. Prepare for them a cream sauce, using a teaspoonful each of butter and flour, a half teaspoonful of salt, a dash of white pepper and a half pint of milk. Drain the carrots, cut each in half lengthwise, put into the sauce and let simmer for [illegible] minutes. When in the serving dish sprinkle with a tablespoonful of finely chopped parsley.

Firm tomatoes of medium size will be required for the salad; select such as are quite round. Cut a piece from the stem end of each and with a spoon scoop out the centres. Drop in a pinch of salt, turn upside down and let stand a while to drain. In the meantime break two eggs in a small saucepan, add three tablespoonfuls of warm water and beat until well mixed; add three tablespoonfuls of vinegar and stand the saucepan over hot water and stir constantly, lifting occasionally so it will not thicken too fast then [illegible]. When very thick and creamy [illegible] two tablespoonfuls of butter [illegible] and in an instant take from the fire, stirring until the butter is absorbed. Season with salt, cayenne and mustard, if desired, a very little [illegible]. Put through the sieve and [illegible] until cold. If closely covered [illegible] be a large quantity of [illegible] may be prepared at one [illegible] for a week or 10 days. Pick over, wash and dry the cress, discarding the stems. Take a sufficient portion of the dressing and mix it with an [illegible] of stiffly whipped cream. [illegible] spoonful of this in each [illegible] shell, add some of the [illegible] or half teaspoonful [illegible] top. Serve with a [illegible] of the [illegible] sprigs of cress round.

A NEWPORT BANKRUPT.

[illegible] United States court in Providence yesterday, upon his own petition, [illegible], a grocer, of this [illegible] adjudged a bankrupt by [illegible] Arthur L. Brown. The matter [illegible] Chester W. Barrows, [illegible] bankruptcy. The schedule [illegible] household goods, for [illegible] is claimed, $200, [illegible] open accounts. The [illegible] $1,464, divided [illegible], the largest of [illegible] Schwarzchild & Sulzberger Co. of Providence, $337, [illegible] Newport Provision Company, [illegible]

SECOND ROUND HALF DONE.

Constant Play in Tennis Singles Disposes of Many of the Early Matches.

Play in the first and second rounds of the national lawn tennis tournament was continued yesterday until nearly dark, the matches being directed by Dr. James Dwight, president and Palmer W. Presbury, secretary of the national association. As soon as one match was completed the court was occupied by other contestants, so that constant play was in progress on all the courts. As a result the first round was completed, except for the Clothier-Little match, which was made the star attraction for this morning. More than half the second round matches were also concluded, 16 having been decided in the first and 32 in the second round, leaving 97 of the 145 players entered to further contests for championship honors.

The most interesting match of the afternoon was that between R. H. Palmer and W. F. Johnson. Palmer made a sensational stand in the national last year, defeating Karl H. Behr in the opening round and later winning from Pell and Niles. Johnson was the interscholastic champion last year and is regarded as one of the most promising among the younger men. The play was excellent in the early part of the match. Palmer won the first set quite handily, 6-3, but Johnson took the next two, at 6-4. After the rest Johnson was in much the better form, and Palmer was unable to stand against his steady, hard play, the set going to Johnson, 6-1.

In the match between Beals C. Wright and Malcolm G. Chace, the latter one of the well known players of a dozen years ago and for several years Rhode Island champion, Chace played an excellent game, but the result was never in doubt. Wright won in straight sets, 6-3, 6-1, 6-4. In the third Chace had the score 3-0 before Wright struck his gait and took four straight games, allowing Chace one and then running out the set.

There was one of the long-drawn-out matches, which are usual on the opening day, Phelps and Blair requiring nearly two and a half hours to decide their contest. In all 68 games were played, 14 games each in the first and second sets, 16 in the third and 12 each in the fourth and fifth.

The summary of the afternoon play is as follows:

First Round.

F. L. Day beat E. H. Frank, 10-8, 6-2, 6-1.
Craig Biddle beat D. B. Miller, by default.
E. S. Blair beat G. A. Phelps, 8-6, 8-6, 7-9, 5-7, 7-5.
R. R. Livingston beat G. C. Plympton, by default.
C. M. Bull, Jr., beat P. M. Lydig, by default.
E. H. Whitney beat D. Nichols, 6-4, 6-0, 6-3.

Second Round.

F. B. Alexander beat E. F. Torrey, Jr., 6-0, 6-2, 6-2.
A. L. Hoskins beat H. J. Holt, by default.
F. Sulloway beat F. G. Anderson, by default.
P. B. Hawk beat H. Rowe, 6-3, 6-1, 6-1.
N. Thornton beat L. M. Burt, 5-7, 8-6, 6-2, 7-5.
A. S. Dabney beat A. A. Gammell, 6-1, 6-2, 6-1.
Semp Russ beat A. T. Baker, 6-1, 6-2, 6-1.
W. Rosenbaum beat G. T. Adee, by default.
C. Biddle beat W. M. Davidson, Jr., 6-3, 6-2, 6-2.
G. H. Nettleton beat E. V. Page, 6-2, 6-1, 6-2.
A. D. Thayer beat A. T. Baker, by default.
Richard Stevens beat T. S. Taller, by default.
Hugh Tallant beat G. W. Thomas, Jr., 6-3, 6-3, 6-4.
W. F. Johnson beat R. H. Palmer, 3-6, 6-4, 6-4, 6-1.
C. O. Cooke beat Ewing Stille, 6-3, 6-3, 6-1.
B. C. Wright beat M. G. Chace, 6-3, 6-1, 6-4.
N. Johnson beat S. W. Merrihen, 6-3, 6-4, 6-1.
R. W. Thomas beat R. W. Dunn, Jr., 6-2, 6-3, 3-6, 6-1.
A. Ingraham beat S. Henshaw, 6-1, 6-8, 6-3, 6-3.
N. Jordan beat E. W. Pitman, 6-0, 6-1, 6-0.
H. L. Westfall beat R. S. Hardy, 7-5, 6-2, 7-5.
S. C. Williams beat Merwin White, by default.

FOR DAVIS INTERNATIONAL CUP.

American Challenging Team Will be Composed of Larned, Wright, Alexander and Hackett.

Four players will compose the American challenging team for the Davis International lawn tennis cup. This includes the present national champion in the singles, William A. Larned; Beals C. Wright, Frederick B. Alexander and Harold H. Hackett. Dr. James Dwight, president of the United States National Lawn Tennis Association, made this announcement yesterday afternoon as the selection of the committee, of which he is the chairman. All the players are said to be ready to make the trip to Australia in the event of the Americans winning the preliminary matches against the English challenging team.

Dr. Dwight said that he was cabling to the English Lawn Tennis Association and also to Australia of the selections, as was necessary for him to do according to the rules. Unless there should be some accident or reversal of form, it is the intention to play Larned and Wright in the singles and the national champion pair, Alexander and Hackett, in the doubles. The contests will be held on the turf courts of the Longwood Cricket Club, Boston, early next month, at a date yet to be announced.

FOR MORTIMER PRIZES.

Results in Tournament in Mixed Foursomes on Links of Newport Golf Club.

At the Newport Golf Club yesterday the mixed foursomes tournament for prizes offered by Mr. Stanley Mortimer was started on the links with eight pairs entered, the matches resulting as follows:

Miss Anna Sands and Augustus Jay beat Miss Nora Iselin and Reginald Brooks, 6 up and 3 to play.

Miss Sallie B. Thayer and Robert W. Goelet beat Mrs. C. Oliver Iselin and Stanley Mortimer, 5 up and 4 to play.

Miss Margaret H. Busk and H. R. Sedgwick beat Mrs. Royal Phelps Carroll and Clarence W. Dolan, 1 up.

Mrs. O. S. Brown and Rev. Roderick Terry beat Mrs. Nathaniel Thayer and T. A. Havemeyer, 1 up.

Today Miss Sands and Mr. Jay will play Miss Thayer and Mr. Goelet, and Miss Busk and Mr. Sedgwick will play Mrs. Brown and Dr. Terry in the semi-finals; tomorrow the winners of these matches will play in the finals.

One-piece Afternoon Frock.

The greatest charm of the young girl's afternoon costume is its simplicity of design. Some of the one-piece costumes being made up for midsummer wear are in silky English mohair, in champagne, pastel blue or old rose. Their walking skirts are side-pleated or gored about the hips and hung upon a self-fabric belt, to which is joined a pleated or blouse waist having sleeves of seven-eighths or elbow length, or with Japanese shoulder caps.

These frocks are slightly trimmed with soutache in self or contrasting color, with Oriental bands or with velvet ribbon. Their chemisettes or guimpes are of white dotted Swiss, all-over muslin embroidery or point d'esprit.

REALITY.

[Edward Wilbur Mason.]

I sigh for blossoms in a wondrous mass:
Golden and pink and blue as central seas;
But my starved soul, down dropping to its knees,
Makes banquet of the daisies in the grass!
I dream of nightingales whose sweet trespass
Of darkness is with palm-born melodies,
But even as I dream, adown the breeze
I hear the evening-navelled echoes glass,
The lark's glad song! O blest Reality,
What time I wildly yearn for place and power,
Or strive to struggle from truth's keeping free,
Be thou, O angel, at my side that hour:
Enrich me with thy wealth of poverty;
Make life magnificent without fame's dower!

FANCIES.

A gay young Parisian de Laine,
Long courted an heiress in vain.
When he said, "Now or niver!"
She answered "Au river!"
So he promptly, of course, went in Seine.
—[Judge.

The seashore never could stand what it has to if it didn't have lots of sand.—[Boston Transcript.

Nina—George says that my beauty intoxicates him.

Elsie—I heard that he said you were enough to drive a man to drink.

Dandley—I'm sure if you accepted me I'd make you a good husband.

Miss Brightly—That's out of the question, but I'm sure I'd make you a good husband if I accepted you.—[Philadelphia Press.

"But," said the fair maid, "you seem rather young to be wearing the title of colonel."

"Anyway," rejoined the beardless youth, "I've participated in 17 summer engagements."—[Cleveland Daily News.

"There is one contrary fact of human nature which shows itself concerning widows."

"What is that?"

"A man is apt to appreciate any widow's charms but his own."—[Baltimore American.

Judge—How do you earn your living?

Prisoner—By writing, your Honor.

Judge—And what do you write for, would you mind telling me?

Prisoner—Not at all; I write for money from home.—[Judge.

The twins were being congratulated upon the arrival of a small brother, when the neighbor inquired, "Well, how did you boys like the boy?"

"Oh," answered Howard, nonchalantly, "we thought it was all right; but mamma would rather have had an automobile."—[Philadelphia Record.

At the Franklin Inn, a literary club, a playwright sat at work. Beer was before him, pretzels and a wad of paper; and upon dressmakers' models on all sides beautiful gowns shimmered—Directoire gowns, sheath gowns, Thais gowns.

"Hello, Spriffs," said a prosperous songster, "what are you doing with all these gowns?"

"I am writing Stella Starr a new comedy," the playwright answered. "These are her suggestions."—[Philadelphia Bulletin.

TO MAINTAIN BRITISH NAVY.

The British government contemplates raising a large loan in view of the growing naval competition abroad. It is stated that financiers of the highest standing have undertaken to lend $500,000,000 on nominal terms to meet the necessities of the fleet for the next few years, without disorganizing the annual budgets or casting a heavy burden upon the present generation.

If such a plan is adopted it will be because it is impossible to forecast the future requirements of the navy until further shipbuilding programs have crystallized, and the setting aside of this fund would be a declaration, translated into terms of cash, of the country's intention to maintain a two power standard at all costs.

THE OLD EVERETT HOUSE TO GO.

The Everett Investing Company has taken title to the Everett House, New York, from the Alliance Realty and Century Investing companies and the Star Holding Company. The property is mortgaged for $712,000. Plans were recently filed for the erection of a big office structure on the site.

FIELD DAY IN KINGSTOWN.

Patrons of Husbandry Entertain Various Granges With Dinner and Entertainment.

The twenty-first annual field day of the Rhode Island State Grange, Patrons of Husbandry, was held yesterday at Essex Grove, North Kingstown. The various granges in the state were the guests of Davisville Grange, No. 8. There was a large attendance, more than 250 members, from all parts of the state, being present.

At 12 o'clock dinner was announced, after the serving of which the meeting was called to order by the State Lecturer, Charles R. Magoon, who congratulated the members of Davisville Grange on the excellent entertainment and dinner that they had provided for the annual field day, and called upon Frank E. Marchant, Master of the Rhode Island State Grange, as toastmaster of the occasion.

Master Marchant spoke at some length upon the work of the national grange for the past year.

Arthur W. Laughlin of Davisville Grange, gave an address of welcome. L. H. Healy, Master of Connecticut State Grange, spoke briefly. Past Ceres Mrs. Ladd of the National Grange said she had been in Rhode Island but twice, and she thought the Rhode Island farmers were too modest. She would advise them to blow their own horns. She said the farmers here are in a high state of advancement.

George E. Adams of the Rhode Island College of Agriculture and Mechanic Arts told of the farm home of olden times as the greatest university. C. H. Potter, Deputy Master of the Connecticut Grange, advocated grange holidays.

Ex-Governor Charles Dean Kimball, president of the board of management of the Rhode Island College, spoke of the prosperity of the mills in this state and said that the prosperity of the mills meant prosperity for the farmers, and that one depended on the other. He spoke on the Rhode Island College and said that while it did not turn out doctors and lawyers, it was producing men who could and were taking a place in the agricultural world. O. H. Hazard, the oldest Past Master in this state, also spoke.

NEWPORT HOSPITAL.
(Legal Title.)
A Strictly Private Institution.
Incorporated 1873.
With its patients in the various wards of the Hospital, and with its out-patient departments and district nursing service the Newport Hospital covers quite well the needs of the sick poor of Newport. It deserves and asks the liberal support of all who are interested in caring for or in any way relieving suffering humanity.
"An institution of beneficence may be without dishonor a perpetual mendicant upon the charities of the community.
That which it is always giving it may be always receiving.
It is the incoming and outgoing of the heavenly breath of Charity."
Newport, R. I., October 23, 1907.

The Newport Journal contains the best matter in the Daily News each week, and will be sent anywhere in the United States, postage paid, for two dollars a year in advance Requests for change of address should give old address as well as new.

BACK NUMBERS.

Copies of the Daily News, two weeks old, three cents extra for each month or part of a month. Copies of the Newport Journal and Weekly News, one month old, five cents extra for each month or part of a month.

Yearly or Term Advertisers are limited to their immediate business, are guaranteed but five insertions in a week and are allowed fifty-two changes a year. Legal notices, auction sales, amusements, cards, wants, and lost and found are not included in space contract.

Advertisers using both the daily and weekly papers gain the advantage of distinct classes of readers, no person reading both the daily and weekly. The Journal goes among people who read no other local paper.

Newport Daily News

WEDNESDAY, AUGUST 19, 1908.

Articles on subjects of local or general interest will be gladly received and will be used if their value warrants and the name of the writer is sent therewith. The name need not necessarily appear in the News.

Statement of

TEN PAGES.

A MENACE TO HEALTH.

Visitors to Newport remark at seeing the "hokey pokey" wagons trundling about our streets, remembering that the authorities have driven them from their own cities. There is also some comment on the fact that so far as has been made public the Board of Health has not exerted itself, not only against these carts but in regard to a certain class of "ice cream" saloons. Recently one of these saloons went out of business when the owners of the building insisted that things should be kept more cleanly, and now that the place is being cleaned by the owners they have been obliged to use disinfectants before setting the cleaners to work. Where the candy and ice cream were sold looked quite attractive, but where the material was made was quite a different matter. Some of the ice cream is said to be manufactured in stables, and what may be the condition of the vessels in which it is made no one appears to know. Already at least one death is ascribed to this cheaply made material, and another person has been suffering for weeks from partaking of it.

STATE REVENUE FROM NATIONAL FORESTS.

General interest in the preservation of forests has been rather halfhearted and there has been a feeling in some quarters that more fuss was being made over the subject than was warranted. Of course those most active in the matter have known that this lack of interest was unreasonable and that the project is important enough to deserve the support of all who care for the welfare of the country. But there is quite likely to be a revision of opinion and a change of sentiment on the part of some of those who have been indifferent to forest preservation, now that it is known that the states which have national reservations are receiving a revenue from them which in some cases amounts to many thousands of dollars. There may be a failure to appreciate the necessity for taking care of the forests and preventing the waste of timber by the wholesale destruction of trees, but there will be no lack of appreciation of the fact that such preservation means dollars and cents directly to the states which have national reservations within their boundaries.

This revenue comes from the provision of the law which has not been given much attention by the people in general, that one quarter of the gross proceeds from the national forests shall be set apart for the use of the states in which the forests are, to be devoted to the maintenance of the public schools or the public roads. These proceeds are derived from grazing privileges, sales of timber, permits to use water power and similar rights, and that they are valuable is shown by the fact that this revenue is large in proportion to the extent of the forests. In Montana the state's share of the revenue amounts to about $70,000, while California, Colorado and Idaho will each have more than $50,000. From these large sums the returns dwindle down to a little in excess of $300, which is Arkansas's revenue from that source.

Now that the knowledge has been diffused among the states, it is likely that national forests will be much more popular than they have been and those who have been pushing the project of setting them apart and providing for their preservation by the government will not need to work as hard as in the past to secure support from the public or from Congress. Indeed, it would not be surprising to see a grand rush by the representatives of all the states which have any forests which can be considered worth attention by the government, to have these timber tracts placed in its care so that some revenue can be secured by the states. It is an altogether different proposition to interest the people when they know there will be some direct revenue from the project than to awaken their interest and support when all they can see in it is some indirect return which looks rather shadowy and indefinite.

After all, it is not this matter of a return in dollars and cents which is most important in the preservation of forests, but the improvement and the saving made by such preservation. This cannot be measured in such demonstrations but is very real and considerable. It comes from climatic conditions which are thus maintained, by irrigation which is stimulated, by the increased value of the timber which is produced, and the many ways which fail to appeal to many because they are not so self-evident as are the checks which the government sends to the states which have national forests within their borders. But if these greater advantages from forest preservation cannot be appreciated by the people in general it is well to have this new incentive to action in this direction given, and it was a shrewd idea to have the clause inserted in the law permitting the states to share in the revenue from the national forests within their boundaries. It is likely to accomplish more and act more speedily than all the efforts of those who have been preaching and urging forest preservation for these many years.

TURKEY AND THE "CAPITULATIONS."

The latest demand of the Young Turks is that Turkey should endeavor to cancel the "capitulations" in accordance with which foreigners are subject to the jurisdictions of their respective governments and consuls exercise "extra-territorial" rights. The demand is premature. The western world, constituting the "family of nations," would better wait for a time and see how thorough the reformation of Turkey is before admitting the Ottoman empire into the family.

The capitulations—in their origin, at least—were not extorted from Turkey as from an inferior. When the Turks captured Constantinople they found there colonies of Genoese and Venetian merchants, administering their own laws under the sanction of the Greek empire. It was entirely in accordance with Turkish methods to leave a city or a group of inhabitants with a large measure of autonomy, unless it happened to strike the conqueror that it would be better to massacre the conquered people instead of taking tribute from them.

These foreign colonies in Constantinople were left much as they were under the Greek emperors, but in more recent periods the sultans have enlarged their conceptions of sovereignty. At the same time Christian nations have recognized the impossibility of leaving their subjects in Turkey to the mercy of Turkish officials, partly because unbelievers have no rights under Islam except what the Moslem cares to grant, and partly because Turkish officials and courts of so-called justice are notoriously and hopelessly corrupt. Therefore all foreign nations have secured treaty stipulations for the protection of their "nationals".

Because of the radical difference between Christian and Asiatic ideas of justice, all western nations have demanded extra-territorial rights from other Oriental nations. A few years ago we and European nations admitted Japan to the family of nations and abrogated all extra-territorial rights. There has been a good deal of dissatisfaction with the consequences. Christendom retains its extra-territorial jurisdiction in China, Persia and Turkey, and it will be wise to test the Turkish reforms thoroughly by time before trusting persons and property to Turkish administration and justice.

PROGRESS IS SLOW.

Of course the world is growing better, as a whole and in the long run, but sometimes it is hard to believe it. Human progress is frequently compared to a river, the main body of which steadily moves forward, but along the margins of which there are pools of slack water, and even eddies in which a subordinate current is moving up stream. That 43 years after Abraham Lincoln, the Emancipator, died there should be a savage race war in his home town, and that negroes should be hunted down like rats and their houses burned over their heads under the shadow of the monument in whose base lies his sarcophagus, indicates a slack water pool or an eddy alongside the stream of progress. A few years ago a colored man of wide distinction was unable to obtain hotel entertainment in the state of John Brown of Ossawatomie. Oh, yes, we are moving on, but the motion is "steady by jerks."

The selection of the Davis cup tennis contest for international honors is an excellent one. Hackett and Alexander showed yesterday in their successful defense of their championship honors that they are the best team at present playing in doubles in this country, while Larned, the present champion in singles, and Wright, a champion of recent years are, with one possible exception, the strongest players in singles. The American tennis world wishes its chosen representatives good fortune in their contests with the English representatives, and later with the Australian players in the far Pacific. And may they bring back the Davis cup, the international trophy.

Mayor McCarthy's proposal to impose a tax on bachelors in this state recalls the highly ungallant remark of the late Bishop Williams of Connecticut, who was a celibate although a Protestant prelate. A lady, perhaps hoping to have a little fun at his expense, reported to him a proposition to put a tax of $100 on every bachelor in Connecticut. "Well, it's wuth it; it's wuth it!" chuckled the bishop.

The disturbance at Springfield, Ill., was exceedingly unfortunate, not only because of the loss of life and property, but for the good name of this country abroad. We read of such things in Russia and Turkey, and think they are characteristic of the civilization of those lands. How shall we convince the people in other parts of the world that these things are not characteristic of our civilization as well?

James S. Sherman, the Republican candidate for Vice President, answers Mr. Bryan's question, "Shall the people rule?" by saying: "Surely the people will rule, surely the people have ruled; surely the people do rule; no party rules." Mr. Sherman is right, and the people will elect the next President and Vice President.

New Sidney, New South Wales, is awaiting the opportunity to give the American battleships its welcome, and if possible a heartier welcome than the American ships and sailors have received in other places.

Colonel Goethals, engineer in charge of the Panama canal construction, thinks the canal will be finished in five years, and at much less cost to the government than had generally been supposed possible.

There are now left only a few of the Presidential and Vice Presidential candidates to be notified of their nomination. There are likely to be no vacancies on any of the tickets.

Samuel Gompers declared that organized labor needs Bryan, and it is equally true that Bryan needs all the labor votes he can secure.

Rear Admiral Evans deserves richly the honors conferred upon him on his retirement from active duty in the navy.

MISTAKES WHICH ARE MADE.

Several Popular Quotations Almost Invariably Attributed to the Bible, Not Found There.

Of popular fallacies those relating to the Bible are perhaps the most widely current. It is commonly stated that after the flood Noah's Ark rested on Mount Ararat. But what the Bible says in the book of Genesis is that it rested "on the mountains of Ararat," Ararat being the name of a district which included the elevations on which the ark came to rest. This is not quite so bad as the man who said he was glad he had gone to church on a certain Sunday, for he learned that Sodom and Gomorrah were cities, and he had always supposed they were man and wife.

It is a popular belief that the fruit which Eve and Adam ate in the garden "eastward in Eden" was an apple, but there is no authority for this, for it is simply called the fruit of the tree of knowledge of good and evil: "And when the woman saw that the tree was good for food, and that it was pleasant to the eyes, and a tree to be desired to make one wise, she took of the fruit thereof, and did eat, and gave also unto her husband with her; and he did eat." The fallacy that the fruit was an apple has been carried so far that the legend seems that the "apple" stuck in Adam's throat; hence the name "Adam's apple" for the thyroid cartilage of the larynx, which is more prominent in a man's throat than in a woman's.

So also it is the fallacy that our first parents were punished by being excluded from the Garden of Eden for eating the forbidden fruit. Several punishments were imposed on both of them for disobedience of the command of the Lord God, but the reason for their exclusion is as follows: "And the Lord God said, 'Behold, the man is become as one of us, to know good and evil; and now, lest he put forth his hand and take also of the tree of life and eat and live forever,' therefore the Lord God sent him forth from the Garden of Eden to till the ground from whence he was taken." Another popular misconception in regard to the human race, which has grown up from the book of Genesis, is that a man has one less rib than a woman, based on the account that the Lord God took a rib from Adam while he slept. "And of the rib, which the Lord God had taken from man, made he a woman, and brought her unto the man." But examination of the skeletons of both sexes shows the same number of ribs in each.

There are several popular quotations almost invariably attributed to the Bible. "God tempers the wind to the shorn lamb" is from Sterne's "Sentimental Journey to Italy." "In the midst of life we are in death" is in the burial service, and came originally from Luther. "The merciful man is merciful to his beast" is the popular corruption of "A righteous man regardeth the life of his beast," as found in Proverbs. "Money is the root of evil" is twisted from St. Paul's utterance, "The love of money is the root of all evil." "Cleanliness is next to godliness," instead of being in the Bible, was used by John Wesley as a sermon on dress. "Little children, love one another," is not found in the Bible, but is attributed by Eusebius to St. John in his old age.

The name of the rich man in the parable of the rich man and Lazarus is popularly supposed to be Dives, and it is frequently so used. But the word Dives is not found in the English version of the Gospel of St. Luke, in which the parable appears, the "certain rich man" having no name. The word "dives," meaning "rich man," appears in the vulgate and came to be used on paintings of the scene in mediaeval times, the Latin inscription frequently being "Dives et Lazarus"; but had the order of the words been reversed, it would have been "Lazarus et dives," the latter word not being capitalized. The common quotation "The tongue is an unruly member," as it appears in the epistle of James, is "The tongue can no man tame; it is an unruly evil." The saying "Truth is mighty and will prevail," as it appears in the First Book of Esdras in the Apocrypha, reads, "Great is truth and mighty above all things."

The phrase in Second Corinthians, "Not to think of men above that which is written" is usually quoted "To be wise above that which is written."

AROUND RHODE ISLAND.

Bryan Unable to Attend a Providence Club Ratification.

Fears For the Safety of Miss Peck Climbing Mount Huascaran in Peru.

William Jennings Bryan will be unable to attend a clambake and ratification meeting planned for next Sunday by the Seventh Ward Democratic Club of Providence. The club has arranged for a big affair, in the hope that both Mr. Bryan and George Fred Williams of Massachusetts would be there. When the plans were first laid National Committeeman Greene assured the club that both would be present for the celebration. Conditions have developed since which make it impossible for either to come, and the bake has been postponed until October in the hope that the two can be secured then. Mr. Bryan's letter expressing his regret at his inability to come Sunday was received yesterday. If Bryan and Williams can come in October, a mass meeting and a banquet will be held in Infantry Hall as part of the celebration. Mr. Bryan's letter ran as follows: "I thank you for your invitation to be present at your ratification meeting, but I cannot go to New England this month, and I am not sure about the dates for September and October. Please present my compliments to the members of the club, and assure them of my appreciation of the enthusiasm with which they enter the campaign. Conditions are such this year that it is not safe to concede any section of the country to the Republicans. The reports are increasingly favorable, and I shall urge our Democrats and the Republicans who are going to vote with us, to wage a fight in every state, county and precinct."

Despatches received last night from Lima, Peru, state that fears are entertained for the safety of Miss Annie S. Peck, the Providence mountain climber, from whom no word has come since her signal last Friday that she had attained a height of 25,000 feet up the side of Mount Huascaran, the towering Andean peak, believed to be the highest mountain in the western hemisphere. Relief expeditions have set out to find her. Since last Friday, the despatches say, she has been looked for by those within sight of the mountain, but no further signal to denote that she was successfully accomplishing the difficult feat of retracing her path down the side of the mountain has come. Had she started downward after getting to the 25,000-foot level it is believed that she would be within the sight of the anxious watchers before this time. Yesterday several expeditions of trained mountain climbers set forth from villages near the mountain to go to her assistance, carrying restoratives and food. The upper part of the mountain, as is the case with all great peaks, is covered with a coating of snow and ice perpetually. All three of the climbers are experienced, Miss Peck's assistants being two of the best of Swiss mountain guides, used to every sort of menace that besets the path of the mountain climber, while Miss Peck's own prowess in mountain scaling is well known.

Nine Rhode Island veteran firemen's associations will start from Providence for Lowell tomorrow morning to pit their old-style engines against noted tubs from all over New England in the annual New England League muster. The fire laddies will go on a special train of 14 cars, with great hopes of annexing a big piece of the prize money offered by the league for the winning tubs. The Rhode Island contingent will include the Providence Veterans, with their famous old engine Gaspee; the Pawtucket company, with the Hay Cart; Central Falls, with the two-times champion Volunteer; the Pawtuxet red shirts, with the crack Fire King, a winner in many musters and former league champion; the Edgewood men, with their Aberdeen, a Southern engine of untried quality in Northern musters; the East Providence men, with the old Watchemoket; Bristol, with the Hydraulion; Woonsocket, with the Tokeoutnow, and the Pocasset company, with their tub.

The Providence Board of Police Commissioners voted to close saloons on Labor day, the same as last year, at the weekly meeting yesterday. This action was taken following a request presented by Thomas F. Gamble one of the prominent labor union leaders of this city. It is proposed to put in force the same arrangement which was enforced against the saloons last Labor day, which will keep the saloons closed until 1 o'clock in the afternoon. It is figured that the big parade will be over by that time, and most of the participants on board boats for down the bay.

Believing in the future prosperity of the jewelry business, Sigmund Rosen, a South Providence real estate dealer, has purchased the manufacturing plant of the Jacobs Jewelry Company on Point street, Providence, and is planning extensive repairs and alterations on the building, preparatory to the making of a line of solid gold jewelry. The ground plan of the building is about 50 by 60 feet and it contains about 3,000 square feet of floor space. Mr. Rosen estimates that he will buy $25,000 worth of raw material at the outset. He gained experience in the business by spending 16 years with the S. & B. Lederer Company. During the two years last past he has transacted considerable business in real estate in the vicinity of his home on Dudley street.

Dr. W. T. Knoop, who is identified with the Sprague House Association and the Providence Boy's Club, has discovered what is assuming the proportions of an epidemic among boys in the Valley Street district in Olneyville, in the form of inflammation and discharge from the ears. Dr. Knoop declares his belief that the malady is caused by the boys bathing in the polluted mill streams in that section of the city. During the past few years considerable agitation has attended efforts for the establishment of public swimming pools in order that the boys of the city, who believe in the summer time that they must go swimming somewhere, may do so in water that is sanitary. Dr. Knoop's discovery, it is believed, will strengthen the movement.

THE WEATHER.

BOSTON, Aug. 19, 8 a.m.—Forecast for Boston and vicinity—Fair tonight; Thursday, fair and somewhat cooler; light, west to northwest winds.

WEATHER CONDITIONS.

Showers have occurred in the Gulf states, Mississippi and Lower Missouri valleys and the western Lake region, and at a few scattered stations elsewhere. This morning fair and generally clear weather prevails, except showers in parts of the lower Missouri valley. The barometer is low over the northeastern portion of the country, with centre of 29.62 inches over the St. Lawrence valley. Moderate and seasonable temperature prevails. In New England at 8 a. m. it ranged from about 60 in the interior of Maine and New Hampshire to about 66 elsewhere. At New York it was 72, New Orleans 76, Washington 72, Chicago 68, Denver 56, San Francisco 52.

EASY FOR CLOTHIER.

Finds No Difficulty in Beating Little in Straight Sets.

Second Round of Tennis Tournament Nearly Completed and Third Begun.

The national lawn tennis tournament was continued at the Casino this morning and as a result of the play the first round was finished, all but six of the second-round matches were decided and seven of the third-round matches played. There was a large attendance of spectators, not so large as on the opening day, when a championship match was played, but enough practically to fill the grand stand and three or four rows around the three sides of the championship court.

The match especially starred for the day was between W. J. Clothier and Raymond D. Little in the first round, and the former won an easy victory in straight sets, Little securing no more than three games in any set. Little played good tennis in spots but the spots were not very frequent, and he repeatedly drove out or netted the ball. In the third he seemed to make a stand, and drove hard and placed accurately for a short time, but was unable to hold out. Clothier played the steadier game, being generally on the offensive and forcing Little to net or drive out. There was at times brilliant tennis and long continued rallies, which called forth applause, but the game on the whole was tame and uninteresting. Clothier won the first and second sets, at 6-2, and the third at 6-3. In the last set several of the games were carried to deuce and a larger number of points than in the others were won on places.

Of the other matches of the morning that between Irving C. Wright and N. W. Niles attracted most attention, being continued long after the Clothier-Little match was decided. It was a four-set event, Niles taking the first set and Wright the next three. The match between C. M. Bull, Jr., and E. H. Whitney also required four sets, Whitney taking the second and Bull the other three.

In the third round Alexander had no difficulty in winning from Pearson, Salloway had an equally easy win over Hawk, and Stevens, Johnson, Russ, Leroy and Westfall won in straight sets. There was a considerable number of defaults, several names being scratched by Dr. Dwight after waiting two days for the players to appear. The results of the morning play was as follows:

First Round.

W. J. Clothier beat R. D. Little, 6-2, 6-2, 6-3.

Second Round.

Merwin White beat S. C. Williams, by default.

G. Beals beat H. W. Stiness, by default.

Robert Leroy beat C. Hatch, by default.

F. W. Watrous beat L. J. Darragh, 6-1, 6-0, 6-0.

G. O. Warner beat H. W. Slocum, 7-5, 6-3, 2-6, 2-6, 6-1.

R. W. Wilson beat R. C. Seaver, by default.

C. M. Church beat F. L. Day, 6-1, 6-0, 6-1.

I. C. Wright beat N. W. Niles, 6-8, 6-3, 6-3, 7-5.

J. O. Ames beat G. F. Parrish, 6-1, 7-5, 6-0.

J. A. C. Colston beat A. L. Sands, 6-3, 6-0, 6-3.

N. Emerson beat E. S. Blair, 5-7, 7-5, 6-4, 6-1.

F. N. Inman beat R. R. Livingston, 6-1, 6-2, 6-4.

C. M. Bull, Jr., beat E. H. Whitney, 6-2, 2-6, 3-6, 6-3, 6-0.

D. Clarke beat V. Sorchan, by default.

L. C. Jennings beat H. C. Davis, by default.

B. Pennhman beat R. Brooks, by default.

S. Johnson beat F. W. Burnham, by default.

H. C. Johnson beat G. A. Thompson, by default.

J. D. E. Jones beat T. R. Pell, by default.

M. S. Charlock beat J. S. Phipps, by default.

A. C. Butler beat H. M. Harriman, by default.

W. H. Trotter beat A. C. Butler, 8-6, 6-1, 6-4.

A. Stillman, 2d., beat W. D. Bourne, 6-0, 6-2, 6-1.

H. A. Markinney beat D. F. Appleton, 8-6, 6-1, 6-0.

R. L. James beat H. R. Fortescue, by default.

Third Round.

F. E. Alexander beat R. H. Pearson, 6-0, 6-2, 6-1.

F. Salloway beat F. B. Hawk, 6-1, 6-2, 6-3.

R. Leroy beat F. W. Watrous, 6-2, 8-6, 6-1.

H. L. Westfall beat A. S. Dabney, 7-5, 6-2, 6-2.

S. Russ beat W. Jordan, 6-2, 6-2, 6-3.

R. Stevens beat A. D. Thayer, 6-4, 6-0, 6-1.

W. F. Johnson beat C. O. Cooke, 6-1, 6-3, 6-1.

The matches in the second and third rounds will be continued this afternoon, and tomorrow the third round will be concluded and several matches in the fourth played. The one selected for the grand stand court is that between Beals C. Wright, a former national champion, and Wallace F. Johnson, last year's interscholastic champion, who defeated R. H. Palmer yesterday and C. O. Cooke today.

A cable was received today by Dr. James Dwight from the English players, accepting Longwood as the place for the international matches, September 17, 18 and 19.

THE GOULDS AT COURT TENNIS.

Mr. and Mrs. George J. Gould, Jay Gould and Miss Marjorie Gould, who arrived here yesterday in their steam yacht, were visitors at the Casino during the day, Mrs. and Miss Gould watching the lawn tennis and the Messrs. Gould playing a game of court tennis with Mr. T. Suffern Tailer and one of the Casino markers, Frank Sullivan. The well known playing abilities of Jay Gould, who is the international court tennis champion, drew a large gallery to the court tennis, in spite of the strong attraction of the lawn tennis matches outside. Each pair won one set.

Messrs. George J. and Jay Gould played a four-handed court tennis match at the Casino this morning with Messrs. T. Suffern Tailer and Robert Russell. During the three sets a large number of those at the lawn tennis games availed themselves of the opportunity of seeing Mr. Jay Gould, the court tennis champion.

The POPE HAS A COLD.

Affects His Gout and Pontiff Obliged to Take a Rest.

ROME, Aug. 19.—The Pope today is slightly indisposed, having caught a cold which has affected his gout. His physicians have ordered him to take a rest, and consequently all audiences have been suspended.

BIDDING IN THE DARK.

Contents of Comique Theatre Sold Without Much Information Afforded.

What appeared like taking chances in public took place in front of the Comique Theatre this noon. It took place in front, because the sheriff declined to unlock the doors. A mortgagee's sale was advertised, and while in the early morning a red flag was hung out it was later taken down and none was observed to be flying when the sale took place. The group which gathered was composed of lawyers, amusement men and others, some of the others being creditors.

It was 20 minutes late before the conditions of the sale were told by Auctioneer Greene, because the doors were locked and the sheriff's office was asked for the keys. Deputy King responded, but he did not open the place. Pending his arrival there was much talk among those present, but little advice publicly given by the lawyers. All sorts of questions were asked Mr. Horgan wished to know about the delivery of the goods if he purchased them. About the extent of the information which he received was that the purchaser could take them after the sale was over, as at any auction, but the auctioneer assumed no responsibility for their delivery. Mr. Nolan, for Mr. Horgan, asked if the purchaser of the contents also purchased the litigation in the foregater which followed no answer to the question was heard.

Some had an idea that they should see what they were buying, but the auction intended to keep the light out of the interior effectively kept one from looking within so long as the doors remained locked. Not even an itemized list of the goods or fittings within was read and no details of the attachments which there might be on the place was given. It seemed like taking a chance and getting what one might when he might.

The bidding opened with $650 from Mr. Levy and closed with $725 from J. Henry Cronin. The conditions called for cash at the close of the sale. Mr. Cronin and J. D. Dickson went to the bank, as they announced, for the money. When they returned they went to Mr. Levy's office, accompanied by Clark Burdick, where the auctioneer was to receipt for the money. Mr. Dickson is understood to be a heavy creditor of the theatre, having done the electrical work. The place was attached at the instance of Hayman & Nason, who did the decorating, and is now in the keeping of the sheriff. It was suggested that if one entered the place there would be action for trespass, under present conditions. It was but a short session in the lawyer's office where the party went to sign the receipt, but Mr. Levy later suggested that there may be a possibility of the place opening under new management. Just where matters stand will be a problem for the lawyers to work out.

The advertisement of the sale gives the information that a mortgage was executed by William J. Campbell of Taunton to Catherine A. Barrington of Fall River, dated June 15, and that the sale is because of default in the conditions in the mortgage. The goods enumerated to be sold are a moving picture machine and attachments, a frame and picture screen, a box office and operator's booth, draperies, chairs, poles, curtains and all other personal property, except a piano, contained in the hall at 237 Thames street.

FISHING TRAP WRECKED.

Steamer Runs Through It Twice, Cutting It in Two and Doing Great Damage.

There is apparently bad blood between the trap fishermen operating off Narragansett Pier. Saturday the trap belonging to Hall & Gardner was completely wrecked, at a time when it is said to have contained the largest number of fish which its workers have seen in it. According to one version of the affair, while the fishermen were engaged in hauling the trap a fishing steamer came along directly through the trap, dragging an anchor and cutting the trap in two. Turning, the steamer went through it again, not only doing damage amounting to several thousands of dollars but also endangering the lives of the men who were hauling the trap. Later, after the men had left the wrecked trap, it is said that it was cut to pieces so that there was not enough to repair. The steamer belongs to another gang, working farther out, and there has been a feeling that the inner trap was catching the fish which would otherwise go to the outer one.

DYNAMITE CHARGE EXPLODES.

Workmen Injured and Drill Vessel Wrecked in Detroit River.

DETROIT, Mich., Aug. 19.—Thirteen men were seriously injured, six of them probably fatally, today in the lower Detroit river, when a charge of dynamite exploded under drill vessel "Destroyer," which has been working on the new Livingstone channel. The day shift started to clean out a hole over which the drill lay, when a charge of dynamite left in the hole by the night shift exploded. All the injured men belong to Amherstburg, except Elmer Carpenter and Fireman John Morey, who live in Detroit.

When tug Columbia reached the scene the Destroyer was found sadly wrecked, with her boilers standing on end and the decks strewn with maimed and bleeding workmen. The injured were taken on board the tug and hurried to Amherstburg for medical attention.

CHANDLER IN NEW YORK.

Boston Man Whose Death Was Reported Arrives on the Oceanic.

NEW YORK, Aug. 19.—Byron D. Chandler of Boston, whose death in an automobile accident was erroneously reported from France the day he sailed for home, arrived here today on the Oceanic.

RE-SAIL THE RACE.

Event of August 6 Repeated and the Theresa Finishes Well Within Time Allowance.

The big boats of the Conanicut Yacht Club Tuesday afternoon resailed the serial race sailed August 6, as on that date the Theresa was unable to race. The wind was stiff and steady from the northwest, making the day an ideal one for racing and for boats which like wind. That the wind was strong was shown by the Day Dream carrying away her chain plate.

It was a good day for the Moslem, and at the end of the first round she was well within her allowance, rounding close to the Theresa. The Moslem touched a mark on the second round and was out. The Theresa picked up on the Thelema in the second round and finished well within her time allowance, taking the race. The Thelema won the race August 6 but her owner, Mr. Wharton, agreed to re-sail the event so that the Theresa might have the same chance as the other boats. The course was to the Torpedo Station buoy and return. The start was at 3:05. Summary:

	Finish corrected.	Time.
Theresa, S. Powel,	5.01.59	1.53.32
Thelema, C. W. Wharton, Jr.,	5.10.15	1.55.15

Moslem, J. W. Lippincott, fouled. Day Dream, Catlin Wetherill, disqualified.

MAKE GOOD TIME.

Motor Boats Hold Their Weekly Race Under Ideal Weather Conditions.

The weekly race of the motor boats of the Newport Yacht Club was held Tuesday evening, under ideal weather conditions, and the boats all made good time. The Little Joker made her first appearance in these races and with Della would have made a better showing had not a tow caused both to go some ways off the course. The starting gun was at 6:31 and all the craft were quickly across the line, the Bertha leading the boats home by nearly a minute. The summary:

	Finish	Elapsed Time.
Bertha L. Lorillard,	7:06:30	31:50
Elk, Anderson,	7:07:23	33:01
Ida, Matley,	7:07:50	33:20
Fearless, Hart,	7:08:50	34:30
Della, Browley,	7:11:08	36:45
Little Joker, Taylor,	7:13:41	38:03

FOR BENJAMIN GARDNER COMMANDERY.

The Musical Five, which is to give a concert for the benefit of Benjamin G. Gardner Commandery, Knights Templar, is composed of D. Bertram Hefferman, violinist and tenor vocalist, F. Gilbert Wilson, clarinet, saxophone and cornet soloist, vocalist and humorist; A. Reade Harvey, trombone player and baritone soloist; Harold Peters, piano and trombone soloist and baritone singers, and S. Franklin Truda, cornet soloist. The quintet comes highly recommended by the press of New England and an interesting program is promised. At the close of the entertainment the commandery will hold a reception.

THE HARRIMAN-HALL MARRIAGE.

Mrs. May Brady Hall and Mr. Herbert M. Harriman went to the City Hall this morning and secured a marriage license, and it is understood that the marriage is to take place today at Mrs. Hall's residence on Clay street. Mrs. Hall is a daughter of the late Judge Brady of New York and was married to Major Charles Hall of the British army, from whom she was divorced last winter in this city. Mr. Harriman, who is also divorced, is a brother of Messrs. Joseph, Oliver and J. Borden Harriman, Mrs. Frederick C. Havemeyer and Mrs. William K. Vanderbilt. The ceremony will be performed by a justice of the Rhode Island courts.

GENERAL HOLIDAY OBSERVED.

Elaborate Program for Dedicating Tablet to Nova Scotia Parliament.

HALIFAX, Nova Scotia, Aug. 19.—The business and industries of Halifax generally observed today as a holiday, on the occasion of the unveiling and dedication of a tablet commemorating the establishment, 150 years ago, of the Nova Scotia parliament the first representative government in the British empire. Today was the third day of celebration, but the program was by far more elaborate and important than any which has gone before or has been arranged for the remainder of the week. The celebrations of the day centered around the exercises of unveiling and dedicating, over which Lieutenant Governor Duncan C. Frazer of the province presided. Other speakers were Chief Justice Townsend, Premier Gouin of Quebec, Premier T. D. Hazen of New Brunswick, Governor Mackinnon of Prince Edward Island, Hon Rudolph Lemieux, and a number of other prominent Canadians.

APPEALS TO RANK AND FILE.

Republican Treasurer Asks Individual Contributions for Campaign.

CHICAGO, Aug. 19.—An appeal to the rank and file of the Republican party for aid in financing the national campaign will be sent throughout the western states today by Fred U. Upham, assistant treasurer of the national committee. In order to expedite the work, lists of men from whom subscriptions are expected have been prepared, and within a week or two, it is believed, responses will be received from every state in the West. Mr. Upham, in his appeal, says:

"Both the New York and Chicago headquarters of the Republican national committee have been opened and the work of the campaign is well advanced. The election of Mr. Taft and Mr. Sherman is essential to the welfare of this country, and perfect organization is necessary to elect them. To secure a perfect organization the national committee must be liberally supplied with funds. Congress recently enacted a statute making it unlawful to solicit money for political purposes from corporations. All the funds, therefore, for the campaign must be supplied by individuals. You are requested to bring this matter to the attention of your business associates and ask each to send a check. Please be as liberal as possible, as it will take a large amount of money to pay the expenses of organization, the postage, printing, speaking bureaus and various details which are absolutely necessary to success."

LOCAL BRIEFS.

—Miss Anita Lawrence of New York is visiting Mrs. Lorillard Spencer.

—Mr. and Mrs. Harold A. Minott (Miss Anita Sands) are visiting among the summer residents.

—After being put in order, steam yacht Electra is again at anchor in the harbor.

—Mr. and Mrs. Henry A. C. Taylor have arrived at Bar Harbor in steam yacht Josephine.

—Mr. Hicks Herrick and family of New York are here to visit Mr. and Mrs. E. J. Herrick.

—Dr. and Mrs. William Appleton of New London are guests of Mr. and Mrs. George B. DeForest.

—Rev. and Mrs. George Grenville Merrill are guests of Mrs. John Nicholas Brown at "Harbour Court."

—Yesterday afternoon a special car came from Fall River, with officials from that division and their families.

—Mr. and Mrs. H. M. Morris of New York are with Mr. and Mrs. William W. Tompkins, at the Ashhurst cottage, Bellevue avenue.

—Miss Emma Thursby and Miss Ina Thursby of New York, who have been visiting Mrs. Bookstaver, have left for Bar Harbor.

—Mr. Alexander J. McAllister, of the New York banking house of Potter, Coats & Prentice, is visiting Mr. and Mrs. James Smith.

—Mr. and Mrs. James H. Anderson, who have been spending their vacation here with Mr. Anderson's parents, have returned to Boston.

—Miss Alva Marsh entertained the Girls' Club last evening, some ten or 12 in number, by a "comic costume party." Hillarity prevailed.

—Miss Rose McLaughlin, who has been guest of Mrs. Emery on Third street for the past week, has returned to her home in Philadelphia.

—The contract for the repairs and alterations to be made to the Swedish Lutheran Church on Corne street has been awarded to Kerr & Beeson.

—Hon. Robert Bacon, assistant secretary of state, has joined his family, who have been guests for several days of Mr. and Mrs. Edwin D. Morgan.

—Mr. and Mrs. Samuel J. Wagstaff (Miss Pauline French) are at Marienbad, Germany, where they will remain until they sail for New York, September 12.

—Mrs. Richard T. Wilson, Jr., will spend the remainder of the summer with her father, Dr. A. Lawrence Mason, at his country house at York Harbor, Maine.

—Mrs. Crosby, widow of Professor George Crosby, and her daughter, Mrs. Hicks, who have been visiting Mrs. John P. Sanborn, have returned to Stamford, Conn.

—The largest number of excursionists ever served at the beach restaurant were provided with shore dinners last Sunday. Things were lively all day long at that part of the beach.

—Andrews Express has contracted, through George W. Smith, for a 45 horse power freight automobile, which will be ready for use in about two weeks. It will be the only one of the kind in the city.

—Rev. W. B. Hency, formerly rector of St. George's Church, arrived here this morning and will remain till Friday. He will receive any who may wish to see him, at Mr. Peter King's, tomorrow evening.

—Mrs. Francis Morris is spending a few weeks at "The Elms," Kingston, Mass. Her son and daughter-in-law, Mr and Mrs. Louis G. Morris, who have been visiting her at "Midlands" have gone on an automobile tour.

—Passed Assistant Surgeon Allen E. Peck, U. S. N., has arrived at the Torpedo Station to relieve Surgeon Lewis Morris, who is to go to the Philippines. Surgeon and Mrs. Morris will leave the latter part of the week for San Francisco, whence they will sail for Cavite.

—There was quite a little surf at the beach yesterday and the life patrol had a call to action, because of the fainting of a woman in the water. She was taken to the beach hospital, where she soon recovered. She came from Providence, and was the first to use this new equipment at the beach.

—Benjamin Caswell, who keeps the Middletown poor house, is seeking a young man who has been living with him, and in the finding of him is in hopes of recovering some of his pension money. Sunday night the young man left the house, having previously placed his suit case outside, and took the car leaving this city for Fall River at 9 o'clock. Later Mr. Caswell missed his money. The young man is understood to have been traced as far as New Bedford.

CHAFIN ACCEPTS THE NOMINATION

Continued from Second Page.

alternative triumphs of different parties to make the public administration the mirror of the ill-concerted and incongruous projects of faction, rather than the organ of consistent and wholesome plans, digested by common counsels and modified by mutual interests. Let me now take a more comprehensive view and warn you in the most solemn manner against the baneful effects of the spirit of party, generally. This spirit, unfortunately, is inseparable from our nature, having its root in the strongest passions of the human mind. It exists under different shapes in all governments, more or less stifled, controlled or repressed; but in those of the popular form it is seen in its greatest rankness, and is truly their worst enemy.'

These are words of wisdom that should be heeded by this generation, for the dangers prophesied are now threatening our nation's welfare.

For a long time there has been a disposition on the part of the leading politicians of these old parties to belittle and ignore the liquor problem. This has now reached an acute stage, which amounts to a conspiracy on the part of the leaders of these parties to coin up the conscience of the people into liquor license revenue and offices. To show that these parties are wrong and that the Prohibition party is right and that we are justified in pressing this issue as by far the greatest in American politics, I will call but one witness. He was the greatest man who lived in the nineteenth century—Abraham Lincoln. He made five speeches in his lifetime, which constituted his political creed. One of them was upon the liquor question, for he was a lifelong total abstainer and a prohibitionist. It was delivered at Springfield, Ill., February 22, 1842. In that speech he said:

"The demon of intemperance ever seems to have delighted in sucking the blood of genius and generosity. What one of us but can call to mind some dear relative, more promising in youth than all his fellows, who has fallen a sacrifice to his rapacity? He ever seems to have gone forth, like the Egyptian angel of death, commissioned to slay, if not the first, the fairest born in every family. Shall he now be arrested in his desolating career? In that arrest all can give aid that will; and who shall be excused that can and will not? Far around as human breath has ever blown, he keeps our fathers, our brothers, our sons and our friends prostrate in the chains of moral death. To all the living everywhere we cry, come, sound the moral resurrection trump, that these may rise and standup, an exceeding great army come from the four winds, oh breath and breathe upon these slain, that they may live.

"If the relative grandeur of revolutions shall be estimated by the great amount of human misery they alleviate, and the small amount they inflict, then, indeed, will this be the grandest the world shall ever have seen. Of our political revolution of '76 we are all justly proud. * * * * Turn now to the temperance revolution; in it we shall find a stronger bondage broken, a viler slavery manumitted, a greater tyrant deposed: in it more of want supplied, more disease healed, more sorrow assuaged. * * * And when the victory shall be complete—when there shall be neither a slave nor a drunkard on the earth how proud the title of that land which may truly claim to be the birthplace and the cradle of both those revolutions that shall be ended in that victory. How nobly distinguished that people who shall have planted and nurtured to maturity both the political and moral freedom of their species."

That was the great Lincoln's estimate of the magnitude of our reform which the political parties of this day ignore.

Mr. Chairman, the platform adopted by the national convention of the Prohibition party, over which you presided, is so plain and comprehensive that no voter need read it a second time to understand exactly what it means. I have studied the platforms of all other political parties. Ours gives the voter the only opportunity he will have this year to cast his ballot against the liquor traffic, and for other reforms being earnestly demanded by the American people.

The lofty ideals of twentieth-century statesmanship call for a United States Senate born of an intelligent people's conscience, instead of mocking statues surrounding the pedestals of concentrated wealth; the equalization of public burdens by a system that will compel the rich to pay their proper proportion of the costs of government. A graduated income and inheritance tax will be a long step in this direction.

The development of the trusts has changed entirely all the old theories of a protective tariff and free trade, and the people demand legislation in their interest on this important matter, which can best be worked out by a permanent tariff commission. We are the only party that strikes a blow at the social evil, so closely allied to the liquor traffic; and propose the only practical method of stamping out polygamy throughout the nation, by a uniform marriage and divorce law.

While not a line of history will be changed by the election of a Republican or Democrat, the triumph of the Prohibition party and the placing of its platform in the constitution and upon the statute book will write the longest, brightest, purest and most beneficent chapter of history that has marked the progress of civilization since governments were instituted among men.

Mr. Chairman and gentlemen of the committee, to you, and through you to the Prohibitionists of the United States, I extend my hearty thanks and grateful appreciation for this token of your esteem and confidence. I consider it the highest honor that will be conferred upon an American citizen this Presidential year. At a future time I will send you a formal letter of acceptance, in which I will more at length discuss the issues raised in our platform and the lack of issues in the platforms of our opponents.

With a firm reliance upon Divine Providence, I accept your commission and will hold high the banner of our party and defend the only rational platform made this year that recognizes Almighty God, and give all there is of me in thought, strength and zeal until these great reforms are crystallized into law and the victory is complete.

NAVAL RETIREMENTS AND PROMOTIONS

By the retirement of Rear Admiral Robley D. Evans, Rear Admiral Caspar Frederick Goodrich, formerly inspector in charge of the Torpedo Station and president of the Naval War College, becomes the senior rear commandant of the Brooklyn navy yard and a member of the General Board of the navy, and will retire from active service in January next. The retirement of Rear Admiral Evans makes no promotions in the grade, as he was an additional number in his grade.

The next retirement for age will be that of Rear Admiral John Porter Merrell, president of the Naval War College and commandant of the Second naval district, September 7 next.

THE SAND ARTIST.

His Compensation Varies According to Weather Conditions, Especially in the Summer Months.

He selected with admirable judgment a corner of the Brighton beach upon which the shadow of a bathing pavilion would fall when the sun would be declining in the sultry afternoon. Quickly driving two wooden stakes into the sand, without much difficulty, he roped off an area about 20 feet long and six feet wide. Upon this gray colored canvas he began, with few preliminaries, to outline his seashore picture. A laborer's shovel, a mason's small trowel and his hands were sufficient paint brushes and tools for him to proceed with in his work. Digging a pit about two and a half feet deep and the length of his little arena, he formed with the nucleus of the sand which he threw out a slanting bank which later on appeared as an embellished frame for his picture.

There were not many persons about at this time of the day, and, save for an occasional observer, he was allowed to continue his work unmolested and alone. As the noonday sun made the ocean's rim an unbroken ring of golden fire, and the incoming tide with its bright green waves broke into shining whirls and foamy eddies upon the yellow shore, the pleasure seeking public began to congregate around his pit to watch him.

"What is this?" asked a negress, as she popped her head over the wooden railing and looked down at the half finished sand picture.

"Sand designer," answered a woman with her, as she looked over her shoulder. "He's the one that does figures in the sand."

As the afternoon wore on the sand artist put the finishing touches to his work by deftly clearing away with his hands the little mounds and hillocks of sand that had strayed about his artistic fingers.

"Isn't that natural, eh?" said a man to a woman. "Had an elephant down here once. You want to drop a nickel down there."

"He won't get any of my nickels," answered the woman. "I haven't got one. I've got only a quarter."

"Well, give him that," said the man.

By this time the sand artist has taken the ropes off the wooden stakes and spread a white cloth upon the beach to receive the contributions of the spectators who appreciate his artistic handiwork. Perhaps his work may be judged to the best advantage under the glare of the electric lights. Then it is that he stands at the back of his picture. And as the nickels, dimes and quarters are dropped upon the cloth he raises his hat in a courteous manner to signify his thanks to the generous givers. He is no doubt a good judge of human nature, for he is content to let the people guess for themselves the title of his picture. Indeed, there are few who could not guess it. A lion and lioness, with their cubs, are faithfully portrayed as a likeness to nature in one corner of the pit, while at the other corner there is a full-length figure of a dead hunter, with a rifle by his side.

"Wonderful fellow at that!" "Works hard at it, don't he?" and other words of praise the sand artist listens to, as he stands submissively waiting on the sands for the shower of money which an indulgent public gives during the summer season.

United States ... nation of peace we ... believe in the ... about the world ... that in them lies ... to this navy.

...Yours,

...Theodore Roosevelt.

...OYSTER BAY, N. Y., Aug. 5, 1908.

...Invitations were ... Monday to be present, ... Hughes, Paul Morton, former Secretary of the Navy, and General Anson G. McCook. Each expressed high appreciation of the admiral and his services to his country.

Following the reading of the letters impromptu addresses eulogizing the admiral were made by Colonel Walter S. Franklin of Baltimore, F. W. Stevens, vice chancellor of New Jersey; Judge Gearo of Champaign, Ill.; Commodore E. C. Benedict of New York and Rev. Dr. Herrick Johnson of St. Louis.

After the audience had sung "America" Dr. Andrew S. Draper of New York made the address of presentation of the loving cup, which was a gift to Admiral Evans from the guests of the hotel. In accepting the loving cup Admiral Evans said:

Ladies and Gentlemen:

In one respect at least naval officers are exactly like any other worthy servants of the people—they are glad when they have pleased their employers. From what I have heard and seen here tonight, it seems that during my 48 years of actual service I have given satisfaction to you who may fairly be assumed to represent the people of the United States—my employers. I have not the necessary words with which to thank you for what you have tonight done for me. Please accept my sincere thanks for the beautiful cup, which will be preserved and valued by those of my family who survive me.

It may not be out of place for me to say that during my 48 years of service I have done all in my power to uphold the honor and dignity of my country, and that I have loved the dear old flag as I love nothing else in this world. That I have suffered severely under that flag must be evident to any one who sees me, but I would live my life over again just as I have lived it if I knew the suffering was to be a thousand times as great. I go to the retired list with a feeling that it is a reward for long and honorable service, and I hope to enjoy the rest and comfort it may bring, unless some emergency shall call me back into active service, when I shall give all that remains of me to my country as willingly as I have given the best years of my manhood.

I thank you again most sincerely for the courtesy you have shown me.

Wild cheering followed Admiral Evans's speech.

Just at the close of the exercises a huge birthday cake covered with 62 lighted candles was brought into the room. This gift seemed to please the admiral more than any other part of the ceremonies of the evening.

A reception followed the formal ceremonies and women, children and men vied with each other in their efforts to show their affection for the honored guest of the evening.

PORTSMOUTH.

[Regular correspondence of the News.]

St. Paul's parish held an enjoyable picnic at Island Park Tuesday, under the management of the Junior Auxiliary. Sandwiches, olives, cake, lemonade, ice cream, nuts and peaches were served. There were between 50 and 60 in attendance.

Miss Hattie Wheeler entertained Mrs. Joseph Burlingame of Providence recently.

Mr. William Lewis, who has been watchman at Oakland Farm for quite a long time, has resigned and gone to Chester, N. H., where he will superintend Mr. Amos T. French's large farm. He secured the situation through the influence of Mrs. Elsie French Vanderbilt, who is having a fine estate quite near her brother's re-modelled. The family of Mr. Lewis will join him October 1.

Steam yacht Aldie, belonging at Providence, met with an accident at the railroad bridge. The boat was attempting to pass through the draw on her way to Providence, but the channel proper was being used by the Islander and the yacht tried to use the east passage. This is dangerous for any large craft, as it is rocky and quite shallow. The boat struck three times on the rocks. A swift current was running through the draw, and the captain was unable to manage the boat, which headed for the pier and its bowsprit rammed into it. It had been going with such force that it pierced a piece of hard pine joist six inches thick and was wedged in. The 11:30 train for Newport had to pass over the bridge and it was necessary to close it. This was finally accomplished, but the yacht remained in the same position. Later several men succeeded in chopping off the bowsprit and the boat was hauled out and steered out of the passage, unharmed except for a few scratches. Signs directing boats to use "the other side" are placed on the bridge and the yacht was warned not to use the passage.

The Tuxedo Club is to entertain a party from Boston Sunday with a turkey dinner.

Mr. and Mrs. Clarence Fields, who have been spending a fortnight in town, have returned to Taunton.

Mrs. Bury, her daughter-in-law and Mrs. Hines of Pawtucket have been guests of Mrs. Canning.

Mr. and Mrs. Harold E. Chace are spending a few days at Hanover, Mass.

Mr. and Mrs. E. J. Cole of Swansea have been guests of Mr. and Mrs. William Sidaway.

Every cottage at the Hummock is occupied and several camping parties are finding rest and recreation there.

Mr. and Mrs. H. A. Brown have been entertaining Mrs. Ethan McIntosh and her daughter. Mr. McIntosh took them home to Providence on his yacht, the Clolet.

Mr. William D. Brooker, who has been spending a fortnight with his family, has returned to New York.

The Islander broke down on her trip to Seaconnet recently. An accident to the cylinder caused her to be laid up at Humphrey's wharf, Tiverton, so that she did not arrive at Seaconnet Point until 6:30, though due at 5 o'clock. She carried large parties on both trips.

Mr. Harold Vincombe of Fall River is spending a two months' vacation in town.

Miss Irene Brown of Newport is guest of Mrs. James A. Fanning.

Mr. and Mrs. Fred Hutchins of South Dartmouth and Mr. and Mrs. Robert Dugdale of New Bedford, who are on a month's cruise on yacht Scout, have been guests of Mr. and Mrs. Harry Dugdale at Island Park.

At Brockton—Brockton 3, Lawrence 2; Brockton 1, Lowell 0.

STATES FALLING INTO LINE.

Preparing Buildings for Alaska-Yukon-Pacific Exposition.

Sites Selected for Various Structures and Exhibits Being Gathered for the Event.

The different states of the Union which are to participate in the Alaska-Yukon-Pacific exposition, which will be held at Seattle beginning June 1 and ending October 15, 1909, are busily engaged in getting their buildings and exhibits ready. Oregon, the first commonwealth to begin building, has its handsome structure nearly completed. The state appropriated $100,000, but the commission has decided that an additional $50,000 will be necessary to make the showing it desires, and at the meeting of the legislature in January that sum will be forthcoming.

Washington, which made an appropriation of $400,000, will be ready to break ground within a few weeks. For the past year the commission has been busy arranging for displays. The Washington building, as the Evergreen state will be the hostess, will be used mostly for entertaining purposes. It will be a large structure, purely classic in style of architecture, and will be built partly of brick, which will make it a permanent building.

California has broken ground for its building, which will be an attractive edifice in the old Spanish mission style. The Golden state appropriated $100,000 and it is probable that this amount will be supplemented at the next legislative session. A feature of the California building will be a semi-tropical garden which will surround it.

Missouri has selected a site and the plans of the building have been drawn and approved. The "Show Me" state will have handsome headquarters which will cost $25,000. Missouri appropriated $10,000, but this sum will be increased by about $60,000 more during the early part of the 1909 session of legislature. She has a custom of appropriating a preliminary amount for expositions, and then, at a later date, enlarging the sum. Missouri will start to build within a few weeks.

New York has selected a beautiful site overlooking Lake Washington, upon the shores of which the exposition borders. The plans for a handsome and imposing structure are now being finished. Members of the commission visited Seattle recently to pick out a location and inspect the progress of the work on the exposition. They were so pleased with what they saw that it is probable that they will recommend an additional appropriation to the one of $75,000 already made. The Empire state will do much entertaining in its building during the exposition.

Utah, which will spend about $25,000, will soon be ready to begin work. Nebraska and Pennsylvania, which made appropriations of $15,000 and $75,000, respectively, will wait till the next meetings of their legislatures before erecting their buildings.

Assurance has been given the management that at least 10 other states will take part. All of the commonwealths of the Pacific West will participate, and many states of the Middle West and East have signified their intention of falling into line. It is the plan of these states to make their appropriations early in the sessions of their next legislatures, which will give them ample time in which to build their buildings and collect their displays.

The city of Chicago will have a separate building at the exposition. The metropolis of the Middle West is the first city to definitely decide upon a separate structure in which to exploit itself. Recently E. D. Stevens and H. A. Wheeler, representatives of the Chicago Association of Commerce, visited Seattle and picked out a site on the grounds for the Chicago building which will be erected at a cost of $25,000, under the auspices of the Association of Commerce. The building will be a faithful reproduction of old Fort Dearborn, with its stockade and the little settlement which was Chicago in its infancy just outside. Inside the fort building proper it is planned to introduce a series of stereopticon, moving pictures and general exhibit lectures, to be varied almost daily, for the entertainment of visiting crowds. The exhibit will show the Chicago of Fort Dearborn days in contrast with the western metropolis as it will be next year. Scenes from the great stores, the stockyards, the big manufacturing plants, many of the downtown streets, and both club and home life will be introduced. The pictures will not only be moving pictures, but they will be "talking pictures." By a new device recently made successful the hum of conversation and machinery or street traffic is reproduced with moving pictures by a photographic attachment. The Chicago Association of Commerce will spend about $50,000 more for its installation and maintenance of the exhibit.

Other cities of the country are planning for buildings and the management expects to have many city buildings in addition to the large number of state structures.

Work on the United States government buildings will begin within the next month, which will give the builders ample time in which to finish the structures. The government board which will have charge of Uncle Sam's participation has now been appointed. It consists of Jesse E. Wilson, assistant Secretary of the Interior W. de C. Ravenel, of the National Museum, and W. M. Geddes, of the Treasury Department. The latter will act as secretary and disbursing officer. Special agents are beginning to arrange for the collection of the exhibits and the supervising architect's office is busily engaged in finishing the plans for the government group.

Uncle Sam will spend $600,000 for his part of the exposition. Of this sum $250,000 will be expended for the following buildings: Main government, Alaska, Hawaii, Philippines, fisheries and biograph lecture hall. The remaining $350,000 will be spent for the collection and maintenance of the exhibits.

The government group will have the most conspicuous site on the grounds. The buildings will stand at the northern end of the Cascade court and will tower over the other structures. Looking directly down the main picture the vista will be closed by the southern end by the majestic snow-capped peak of Mt. Rainier. The government building will be imposing in design, and the largest dome of the exposition will crown the main building.

PLAN TO ATTEND CONVENTION.

Redmond and Devlin to Go to Boston for United Irish League Meeting.

BOSTON, Aug. 19.—John E. Redmond, chairman of the Irish Parliamentary party and one of its colleagues, Joseph Devlin, it became known today, are both planning to attend the national convention of the United Irish League, to be held in Faneuil Hall, this city, September 22 and 23. Both the members of parliament will probably arrive here September 19 to be present at the athletic tournament and field day.

NEW YORK LETTER.

City's Tax-Free Property Exceeds National Debt.

Oldest Thief in the Country—Street Cars Only for Millionaires—Fined for "Stick" in Lemonade.

(Correspondence of the News.)

NEW YORK, Aug. 18.—According to the latest reports, the value of the property in this city which is exempt from taxation is about 25 per cent greater than the national debt, amounting to the tidy sum of $1,234,583,795, as compared to $958,809,824, the total of the nation's indebtedness. This figure is just about twice the total of the city's debt, which in apparent endeavor to surpass that of the whole country now amounts to $675,000,000. Poor Father Knickerbocker, with his borrowing limit reached, is looking anxiously at the untaxed property, but while the returns from it, if taxed, would materially assist him there seems to be no way of achieving this end. Indeed, in a large part it would simply mean taking money out of one pocket to put in another, since of all the exempted property the city holds $800,000,000 worth. Of this total Central Park represents the largest single item, being appraised at $215,000,000, making it easily the most valuable park for its size in the world. In addition to the city's share, the federal government has some $50,000,000 worth of tax-free property here, while the churches hold about $31,000,000. In this latter class Trinity Church is easily the leader, the famous corporation being given an exemption of $17,000,000. A fact little realized is that the subways owned by the city are now valued at $40,000,000. The increase in value of the tax-exempt property during the year has been $183,000,000, a feature which is causing considerable worry to the city fathers. Of the various boroughs Manhattan—that is that part of the city below Harlem River—leads all others with $901,000,000 of exempt property.

The oldest thief in the United States, both in point of years and in the length of criminal career, has just been committed to the home for the the aged in the person of Mary Strahan, known to police officials of three generations simply as "Mary." Since 1863, or for nearly half a century, Mary, who lays claim to being the most contrared criminal in the United States, has been a leader among New York's pickpockets. She has pilfered valuables from more different styles of dress than any person now living, the knop skirt and the sheath skirt being all one to her when it came to solving the mystery of their hiding places for valuables. Of the last 43 years she has spent 22 in penitentiaries and reformatories and it is estimated that during her career she has extracted more than $50,000 from the pockets of unsuspecting persons. In spite of this, however, she has lived in want for more than half a century, although her undoubted right to the title of "Queen of the Pickpockets" has never been questioned.

Of late her wonderful cunning has deserted her and in compassion for her great age—she is more than 85 years old—she was given the comparatively light sentence of a year in the home for aged criminals instead of a term in the state's prison. An alternative fine of $500 was offered her, which Mary, though penniless, agreed to produce if turned loose in the streets for 24 hours. In spite of the lightness of her sentence in view of her record, it is not expected that the now deposed "Queen of Pickpockets" will leave the home alive.

If matters keep on in their present course, future visitors to New York should be neither insulted nor ashamed if, as a special treat, they are asked to take a trolley ride. As things are going now only John W. Gates, J. P. Morgan and a few others of the very rich will be able to patronize the trolley cars within a short time. Cabs are likely to become the means of conveyance of the poor and the old invitation to come for a ride in the park in a hansom is likely soon to be looked upon as a penurious means of entertainment. This changing of conditions is due to the immmerable receivers of the city's various street railways, nearly all of which, under the load of watered capitalization, have been losing money from the standpoint of those millionaire philanthropists who have been kind enough to finance them.

At present, with various separate lines in the hands of different receivers, each intent on cash earnings and oblivious to the public need, it is not only possible but necessary in one specific case to pay 15 cents for a ride of five blocks. Formerly this ride cost five cents, but with the abolition of transfers the city has achieved the title, whether unwillingly or not, of having the most expensive street car service in the world. For the ride above mentioned an auto cab would be as cheap, and if present developments continue the title of the street car as the "poor man's carriage" will be a misnomer.

The most inconsolable mourner of the famous Tom Platt, who was recently shot back of the city hall, is Marty Keese, the janitor of that famous building. The Tom Platt in question, it should be understood, is not New York's well known and aged senior Senator, but the city hall cat, which for 14 years has held the ratting championship of the institution. Last summer Tom Platt, together with his co-worker, Theodore Roosevelt, was discharged from the city hall because of old age. Such strong objections were raised, however, that the two were reinstated. Theodore Roosevelt, as might have been expected, shortly threw up the job and disappeared. Tom Platt, as might also have been expected, stuck to his job vociferously, although almost blind and totally unfit for service. Recently his blindness became complete and as he had achieved the ripe old age of 18 years, it was decided to end his existence by a bullet. In his death the city hall lost one of its most famous characters almost as well known to local politicians as the Senator after whom he was named.

Since his demise Janitor Keese has been overrun by persons possessing cats who desire to see them installed as Tom Platt's successor. Many prize cats, Angoras and the like, have been rejected because of their liability to be stolen. The one which was finally selected was blind of one eye and minus one ear, although a champion ratter. It was joyfully accepted by Keese both because it was unlikely to be stolen and on account of the plague of rats which has lately beset the city hall. The game of the new feline office holder is William J. Bryan. For according to Keese it was necessary to have a Democratic representation in the building where Tammany Hall is most powerful.

At first glance it would seem that the great prohibition wave which is sweeping over the country has at last struck New York, that home of strong liquors, where barkeepers rake in $1,000,000 every day in the year. At any rate, a citizen here has just been heavily fined for putting a "stick" in a bowl of lemonade. The "stick" in question, however, was a wooden leg, and its unlawful use brought up one of the most curious cases which has come to the attention of the police courts of late years.

Recently one Wagner, who earns a precarious livelihood by dispensing lemonade at a penny a glass, was aroused from his slumbers on a dull afternoon by the shouts of a small boy who awoke him by yelling, "der's a guy outside with his leg in yer lemonade." Investigation proved the assertion to be correct, for a one-legged man was found to be stirring the concoction with his wooden leg which he had unstrapped. Wagner yelled lustily for a policeman, but when the blue-coated emissary of the law arrived he was in doubt as to whether he had a legal right to make an arrest, since the law covered no such point. Eventually he took a chance and did so. Within five minutes of his arrival at the police court he was followed by a health officer with Wagner in tow. The latter had been arrested for "practices injurious to the public health." A fine of $10 was imposed in each case and Wagner says he will appeal to the supreme court. This is the first one on record in New York for selling a drink with a stick in it.

Longacre.

COMPENSATION FOR INJURIES.

Artisans and Laborers Employed in the Service of United States Come Within Provisions.

The act of May 30, 1908, entitled "An act granting to certain employes of the United States the right to receive from it compensation for injuries sustained in the course of their employment," which came into effect August 1, 1908, is a measure of great importance in the domain of labor legislation. Under previous laws, compensation in case of injury is paid to employes in the Railway Mail Service and in the Life Saving Service. The new law applies to persons employed by the government as artisans or laborers in the following services: Arsenals; navy yards; river and harbor construction; fortification construction; hazardous employment in the reclamation service, namely, in construction and in control and management of works; hazardous employment under the Isthmian Canal Commission; government manufacturing establishments.

According to a rough estimate made by the Department of Commerce and Labor, about 75,000 government employes come within the provisions of the law. Compensation will be paid under this act only for such injuries to an employe as occur in the course of his employment and cause inability to pursue his employment for more than 15 days. Compensation is not paid if the injury is due to the negligence or misconduct of the employe injured. The act applies only to injuries received on or after August 1, 1908.

The compensation consists of a continuance during the period of disability, but not over one year, of the same pay which the employe was receiving at the time of the injury. If the employe is killed by the accident or dies from the results of injury received and leaves a widow or children under 16 years of age or dependent parents, the same amount of compensation is paid to these dependent relatives until the completion of the 12 months' period.

The administration of the act is entrusted to the Secretary of Commerce and Labor. All questions of negligence or misconduct are to be determined by him, and in case of death from injury, the distribution of the compensation among the dependent relatives entitled to it must be made according to his orders. "Cases of injuries to employes coming under this act must be reported to the Secretary of Commerce and Labor, and compensation may be paid only when approved by him.

No compensation will be paid either for injury or for death unless the persons entitled to such compensation make application for the same. This application must be made by the injured employe, or, in the case of his death, by his dependents, and forwarded by the official superior of the injured employe, accompanied by a physician's certificate, through the regular official channels to the Secretary of Commerce and Labor. The secretary is authorized by the act to demand such additional information, or order such investigation, as is necessary for the proper administration of the law.

Regulations have been prepared by the Secretary of Commerce and Labor for the guidance of officials and employes in the government service, and the necessary forms and blanks have been prepared, printed, and distributed among the government offices, throughout the country, where persons are employed who come under the provisions of this act.

According to these regulations, reports of injuries must be made by the official superior of the employe to the Secretary of Commerce and Labor not later than the second day after the accident. Application for compensation must be made as soon as possible after the first 15 days of disability. If the application is approved, the compensation will be paid during disability, but for a period not exceeding six months, at the end of which period, the injured person must make application for re-examination by a physician provided by the Secretary of Commerce and Labor, and after this examination has been made and reported, a new approval by the secretary for further payment of compensation is necessary. This procedure is demanded by section 5 in the act. The only other condition required is a presentation to the disbursing officer on each pay day of a physician's certificate as to the disability of the injured person, approved by the official superior.

Applications of dependents for compensation in the case of the death of an employe from accidental injury must be made within 90 days after such death.

The records of the application of this act will furnish valuable material for statistics of accidents, which, for this country, are quite meagre. In order to make the statistics more complete and valuable, reports of all accidental injuries to government employes, regardless of the application of this act, have been requested from all government establishments and offices. As the number of United States government employes exceeds 350,000, these statistics will prove of great scientific value and practical use in the future.

SHERMAN—BARNETT.

(Westerly Sun.)

A quiet home wedding occurred Saturday at the residence of Mr. and Mrs. Martin M. Barnett on Pennsylvania avenue, in Brooklyn, N. Y., when their daughter, Miss Ada Barnett, was united in marriage to W. Ward Sherman of Westerly, son of William H. Sherman of Middletown, a member of the firm of R. G. Dixon & Co.

The ceremony was performed in the morning at 10 o'clock by Rev. Harry Miller, pastor of the English Lutheran church in Brooklyn. The bride was gowned in white silk and carried a bouquet of bride's roses. The affair was a quiet one, only the immediate relatives being present.

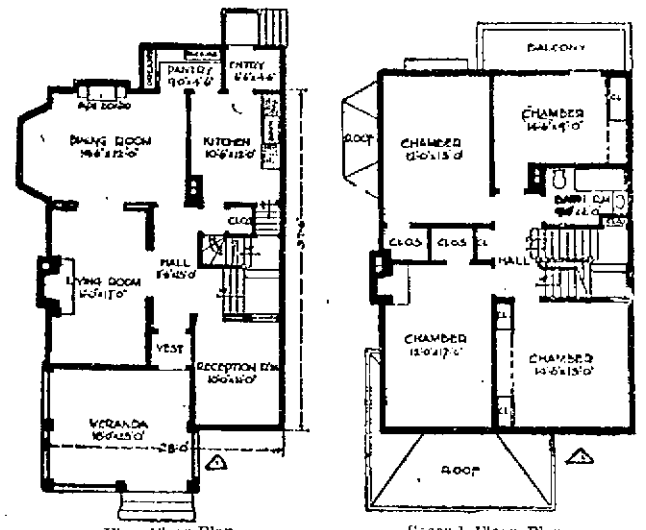

An informal reception was held after the ceremony. Mr. and Mrs. Sherman arrived in Westerly Saturday evening and are the guests of friends before beginning housekeeping here.

AN ATTRACTIVE FRAME RESIDENCE.

Copyright, 1908, by Henry Wittekind, Chicago.

PERSPECTIVE VIEW.

First Floor Plan. Second Floor Plan.

This frame house of two stories, basement and attic has exterior clapboarded and a shingled roof. The first floor contains a large living room with open fireplace, a dining room with bay window and built-in sideboard, reception room, stair hall, kitchen and pantry. Upstairs are four large bedrooms and a bathroom. One bedroom has an open fireplace. In the attic are two finished rooms. The interior finish is oak on the first floor, with oak floors except in kitchen and pantry, and whitewood on the second floor, with Georgia pine floors.

HENRY WITTEKIND.

QUAINT OLD GLOUCESTER.

Odor of Fish—Pungent Ozone of the Sea—Ever Present.

Town Early in History, by Gallant Services, Earned Vital Place in Life of Colonies.

(Washington Star.)

Everything smells of fish in Gloucester, Mass. It is not an odor to which any of the natives object, nor do visitors find in it anything of which to complain, for it is the pungent ozone of the sea, the smell of fish freshly caught. Gloucester has really never known anything else, for since its beginning, approaching three centuries ago, it has always had fishing for its chief industry, and today it is the greatest fishing centre of the United States, and, according to the belief of many persons, of the world.

Nothing more picturesque can be imagined than this quaint New England town, where, from the ocean, the 30,000 inhabitants secure the greater part of their sustenance. Gloucester is 30 miles from Boston, and includes the villages of Annisquam, Bay View, East Gloucester, Freshwater Grove, Lanesville, Magnolia, Riverdale and West Gloucester. The magnificent harbor, large and affording safe water room for the largest ships of the world, has had the effect of encouraging traffic in other things besides fish. Salt, coal and lumber are largely imported. There are interests in granite quarrying, drop forging, brass founding, the manufacture of fish glue, anchors, machinery, oilcloth, nets, twine, sails, cigars and shoes; moreover, Gloucester also has shipbuilding plants worthy the name.

But, after all, it is the fishing which interests the thousands of visitors not only those who actually spend the summer in the vicinity, but the thousands who visit Gloucester while passing through Massachusetts in the course of the popular summer tour of the New England states. It was not until the beginning of the eighteenth century that Gloucester became especially prominent for its fisheries and its shipbuilding industries, but by the time of the outbreak of the Revolution the town had earned a vital place in the life of the colonies, and many of the ships which went out to do battle with the fighting craft of England were built and fitted out in Gloucester, a large part of the money coming from patriotic contributions on the part of the owners of the big fish industry.

The town had to bear the brunt of an attack by the British during the Revolution, but the ships of the enemy were repulsed by the hardy seamen. During the War of 1812 a number of privateersmen, who wrought deadly execution on the commerce of the enemy, were sent out from Gloucester, and many of the grizzled old salts, who attain a most venerable age in this healthful climate, can tell from tales told them by their parents or grandparents of rich prizes taken by Gloucester fishermen turned fighters.

The great storms which sweep the New England coast have ever found a favorite vortex in the vicinity of Gloucester, and many shipwrecks have taken lives near by. The large, sunken rock called "Norman's Woe," which is well known to every visitor, was made famous by Longfellow's poem, "The Wreck of the Hesperus."

Gloucester has been an incorporated city since 1873, but in many respects it is hard to think of it as anything but a fishing resort—a little village by the ocean side. For one thing the flavor of olden times clings to it. Among the 6,000 men who do nothing but fish there are many who have passed the 70-year-old mark, and some who have numbered as many as 80 years, yet they are still able to bear their share of the work in going after the cod and the mackerel.

The fishing is both arduous and dangerous. It is done from sloops and schooners, which go out to the fishing grounds daily. On each schooner is a boat, so to speak, of dories a series of small boats, differing in size, so that one can be comfortably stowed in another, and therefore not take up much room. When the fishing ground has been found the sailors spread round in the dories to secure their catch.

Often in the fog some of the small boats get in the path of the swift moving ocean liners, for the favorite fishing banks are directly on a line with a much-traveled route. Often not many details are obtainable of the tragedy which ensues. Only a few lines in the newspapers tell of a small boat, or a number of small boats, with their crews, lost at sea. A hundred thrilling tales of narrow escapes can be picked up in the course of a day spent with these hardy men of the sea, but the experiences never seem to daunt them. They are ever ready for the day's trip, and its hopes for reward.

All the labor of handling the fish has been systematized, as it had to be in a business where the bulk is so great. There is no wasted effort carrying the fish into town, nor is the dirty work permitted to mar the beauty of the city proper. Everything is done right at the wharves, where there is ever at hand a limitless supply of water to do the vitally important final labor of cleansing.

When a two-masted schooner, laden to the gunwales with its cargo of fish, comes into the wharves the fish are carried to great tubs. Over these stand a company of experts—men who have cleaned hundreds of thousands of fish, and who can make the quick cuts and do the scraping with incredible speed. Running to each tub is a hose, and after the waste has been removed an instant under the high pressure of water from the hose cleans out the fish completely, and makes it sweet and ready for the next step in operation.

Codfish is dried and salted before being sent to the market, and this work is also done on the wharves. Here are ranged hundreds of tables, exposed to the bright sunlight. The cleansed fish are piled up in such a manner that the warm rays have a most admirable chance at them. This summer has been so hot that the fishermen have had great difficulty in drying out the cod. Instead of taking the water out in the gradual, normal manner, the sun has been so fierce that it has baked the fish, and in this manner many of them were cooked so hard on the outside as to be virtually worthless for the market. But this is a rare occurrence, for under ordinary conditions the climate of New England is ideal, and the sun does the work of drying in a manner far more satisfactory than could any agency of man's production.

From the open-air drying tables the fish are shifted to the boxing and packing establishments, which are also located along the water front, and then they are made ready to be shipped to all parts of the world.

Gloucester regards its fishing industry with the same traditional pride that a native of Brussels might regard the lace industry. From generation to generation the families of noted fishermen stick to the business, and nothing is a more familiar boast to some grizzled old follower of the sea than to be able to say that both his son and his grandson are great fishermen, and then there is a strong probability that a great-grandson just beginning to master the fine points of the business will be better than any of them.

The cod, of course, is the most admired of all the fish which fall to the lot of these dare-sea Izaak Waltons, though the mackerel is also regarded with great respect. The deep-sea fishermen look down upon the clam diggers, but the latter can afford to ignore this contempt, for there is plenty of money to be made in the sale of the bivalves. They are to be found in plenty on the sandy shores of the neighborhood, and at all hours of the day, but especially at low tide the clam hunters turning up the beach with their rakes can be seen at work. Clam shucking is an expert feature of the work, and many of the old hands make phenomenal records in dissecting the luscious clam from its protecting shell.

One remarkable feature about Gloucester is the fact that, despite all the years in which the adjacent waters have been fished, the supply has never shown any appreciable diminution; there seems to be just as many fish as ever, which means that for years to come Gloucester will maintain its reputation.

ROWBOATS TO LET
BY THE HOUR.
[illegible], Spring Wharf.

CHOLERA EPIDEMIC SPREADING.

Working Its Way Down Black Sea and 31 New Cases Reported.

ST. PETERSBURG, Aug. 19.—The centre of virulence in the cholera epidemic has been transferred to Rostov on the Don, where 31 new cases and 10 deaths were reported August 17. From the province of Astrakhan 61 new cases and 21 deaths were reported on the same day. The cholera is now working its way down the Black sea along the Caucasus coast.

A SINISTER RECORD.

Twenty-Six Death Sentences; Attempt to Kill Russian Official.

ST. PETERSBURG, Aug. 19.—The handing down of seven more sentences of death was reported today, making the total for one day, yesterday, throughout the empire 26, and constituting a sinister record. There were two executions yesterday. The newspapers have ceased to publish statistics of this kind in order to maintain their circulation in the provincial cities where the publication of death sentences is prohibited.

A second unsuccessful attempt was made yesterday to assassinate the chief of police of Pyatigorsk, M. Von Oglio. Three men emptied their revolvers at the chief but failed to hit him. The police shot down one of the revolutionists, but the other two escaped.

TROOPS HALTED BY BAD ROADS

Military Governor at Tabriz, Persia With Score of Calvarymen.

ST. PETERSBURG, Aug. 19.—A despatch has been received here from Tabriz, Persia, which says that the military governor of Azerbaijan province has arrived at that city. He is accompanied by a score of calvarymen, and announces that a detachment of 6,000 men, accompanied by a battery of artillery, is following him. The main body of troops had to halt on account of bad roads and lack of money, but the townspeople are skeptical of the truth of this statement.

In the meanwhile Satarkhan is in command of the situation. The city is quiet and shooting is heard at infrequent intervals only.

A COLOSSAL SWINDLE.

Operations in Fraudulent Stamps in Russia Cover Over a Year.

MOSCOW, Aug. 19.—The Moscow police are only on the threshold of their investigation of the fraudulent postage stamp business, for which 20 persons were yesterday reported as having been arrested. It is believed the operations, which consisted in the systematic traffic in cancelled stamps after having been renovated, will develop into one of the most colossal swindles of recent times in Russia. The figures already reported of 6,000,000 stamps cover only the sales at Moscow for three months.

The operations of the swindlers have already been traced back over a year. Their ramifications in St. Petersburg and the provinces are now under investigation. Two well known merchants of Moscow are among these arrested.

ENGLISH PRESS UNFAIR.

Did Not Represent Attitude of People Towards American Athletes.

NEW YORK, Aug. 19.—J. J. Hayes, winner of the Marathon race in the Olympic games; J. B. Taylor, one of the competitors in the 400 metre race; J. H. Patterson, jumper, and several other participants in the games, were passengers on the Oceanic which arrived today from Southampton.

Concerning the English attitude toward the American athletes, Hayes said: "The English press was manifestly unfair, but I do not think it truly represented the English people. The papers conceded us no chance whatsoever in carrying off the Marathon prize and when we did win the pill was consequently all the harder for them to swallow. The Italian contestants was disqualified so quickly that there should be no very strong protest of unfair treatment."

EVADED THE CUSTOMS.

Property of Mrs. Jack Gardner of Boston Taxed $80,000.

CHICAGO, Aug. 19.—United States customs officials here have seized tapestries, paintings, statuary and rare pieces of armor, valued at $80,000, the property of Mrs. Jack Gardner of Boston, which were bought abroad for Mrs. Gardner's palace in the Back Bay fens. The goods, the customs officials allege, were brought into this country as the "household goods" of Mrs. Emily Rockwell Crane Chadbourne, with a valuation of $8,000. An investigation was begun by the customs authorities and when the real value of the goods was discovered the tax of $80,000 was placed upon them by Collector of Customs Ames.

Fines and penalties for alleged evasion of the customs laws were fixed at $70,000, which it is said has been paid. However, it is declared that $80,000 additional will have to be paid before possession of the property can be secured. Officials of the customs department have turned the case over to District Attorney Sims for further investigation.

SMITH WILL NOT ACCEPT.

Mack May Call a Conference Regarding Eastern Chairman.

CHICAGO, Aug. 19.—The eastern headquarters of the Democratic committee will be formally opened in New York August 27. National Chairman Mack, on his arrival in that city, will announce the sub-committee which will control the campaign in the East, and name the chairman in charge of the eastern headquarters. Uncertainty as to the make-up of the sub-committee and the selection of a chairman has developed within the last 24 hours. Former Senator James Smith of New Jersey was generally regarded as the man to be chosen for chairman of the committee in the East, but Mr. Smith is understood to have written the national committee he would be unable to accept.

Chairman Mack is being urged to appoint a New York man. Several names have been suggested for the place and Mr. Mack may call a conference in New York to make a selection. Mr. Mack said today that Mr. Bryan would reach here Saturday. Mr. Mack invited the heads of the various bureaus and many prominent Democrats in near states to confer with the candidate John W. Kern, Vice Presidential candidate on the ticket, is expected at headquarters for a brief visit today. Mr. Kern will deliver a speech at a Democratic rally in Milwaukee tonight.

TRIAL OF HAINS BROTHERS PUSHED.

Continued from First Page.

the place trying to get snap shots of the children.

The body of Annis was interred in St. Michael's cemetery, Astoria, Long Island today. Further developments in the case against the Haines brother are expected when the inquest is held tonight in the Flushing town hall.

FAVORABLE TO TAFT.

Garfield, in Trip to West, Finds Majority for Republican Cand'date.

HOT SPRINGS, Va., Aug. 19.—The speech which Mr. Taft will make here Friday to the Republicans of Virginia will involve, according to a statement of Mr. Voyrs, today, a general discussion with reference to the part taken by the Republican and Democratic parties in meeting the abuses of trusts and monopolies, with a reference to the duty of Southern Republicans to make every effort to increase the Republican vote in the South by accessions from the ranks of independent Democrats It will point out, added Mr. Voyrs, the issues upon which such Democrats must sympathize with the Republicans position and Republican success.

James R. Garfield, secretary of the Interior, reached here today after a trip through California, Oregon and South Dakota, Nebraska and Colorado. He made a report to Mr. Taft on political conditions as he observed them, which he said afterward was very favorable from a Republican viewpoint. "The political sentiment as I ascertained it," said Mr. Garfield, was exceedingly favorable to Mr. Taft. There was local trouble in some of the states I visited, but I was told by both factions in each case that nothing would interfere with the head of the ticket. Business is good, crops are good, and I never have seen such heavy rail business in the West."

Mr. Garfield said that the train on which he came East was polled at Kansas City, showing 47 votes for Taft and 17 votes for Bryan.

MEN HORRIBLY MUTILATED.

Rescue Party Believe That None Survive in Wrecked English Mine.

WIGAN, England, Aug. 19.—It is not believed that a single man of the 70 miners who were entombed by an explosion which occurred yesterday in the Maypole coal mine here, survived the disaster. The four men reported rescued yesterday were engaged in an adjoining building. The ventilation fan, which was put out of order by the explosion, was repaired this morning and the mine having been cleared of gases the rescue party again descended. The sight which met their eyes was horrifying. Not far from the bottom of the shaft 18 bodies were found, all frightfully mutilated. Legs and arms had been blown off and heads battered almost beyond recognition.

The management of the mine declares that between 60 and 70 men were under ground at the time of the explosion, and that there is no hope that any will be brought up alive. The woman and children, however, who remained at the pit head all night, refuse to leave until the bodies of their dead are brought to the surface. Nothing else will convince them of the hopelessness of waiting.

LUSITANIA MAKES RECORD.

Wins Renown by Logging Total of 650 Knots in 24 Hours.

NEW YORK, Aug. 19.—The big turbiner Lusitania is approaching this port with at least one more record to her credit. While off Cape Race at midnight last night, her captain sent a wireless message to Vernon H. Brown, the Cunard Line agent, giving her daily run records since leaving Queenstown the sixteenth inst. Up to noon Sunday, which was the day of her departure, she had traveled at the rate of 22.91 knots per hour, but increasing this average speed to 25.66 she logged the mighty total of 650 knots in the next 24 hours, namely up to noon Monday of the seventeenth. There was a slight falling off the next day, the total for the day up to noon yesterday declining to 631.

Previously the best record for a day's run was 643 knots and it was made by the same ship July 6 last.

FORAKER NOT SATISFIED.

Resents Lack of Invitation to Speak at Meeting in Youngstown.

NEW YORK, Aug. 19.—That every one of the candidates for Presidential nomination whose names were presented to the Chicago convention will speak during the campaign, in support of Taft and Sherman, is the expectation of Frank H. Hitchcock, chairman of the Republican national committee. He made the announcement at headquarters today. The list includes Vice President Fairbanks, Speaker Cannon, Senator Knox, Senator La Follette and probably Senator Foraker.

It is said that Senator Foraker, who is in New York today on business, feels resentment because of the failure of the men in charge of the Ohio campaign to invite him to speak at Youngstown. The Senator admits that he is not satisfied with conditions in his state, and says he may not attend the meeting at Youngstown. He also said that he did not expect to call at Republican headquarters in this city. It was stated here today, however, that Chairman Hitchcock and General T. Coleman Du Pont, who is the director of the Republican national speakers' bureau, will avail themselves of Senator Foraker's services if he will consent to speak. The Senator's friends do not anticipate that he will refuse, and it is likely that he will be used in several big meetings in the East. Chairman Hitchcock declined to talk of Senator Foraker's relations to the management in Ohio, saying that it was not in his jurisdiction.

The first speech to be made by James S. Sherman probably will be in Illinois late in September, and from then on he will be actively engaged in speaking until election. Vermont Republicans will listen next week to Leslie M. Shaw, former Secretary of the Treasury; Senator Borah of Idaho, and Senator Burrows of Michigan. A number of other prominent Republicans will be sent into that state and there will be speaking in nearly every city, town and village in the state for the week preceding the election September 1.

At Republican headquarters a demand was received from Nebraska for Senator Borah and Governor Hughes to be sent to the state fair at Lincoln early in September, to speak in reply to an address which will be made by Mr Bryan. George Bruce Cortelyou, Secretary of the Treasury, conferred with Mr Hitchcock today at considerable length

QUICKLY WEARS AWAY.

People sometimes dread to enter a bank; this is simply because they are not familiar with the customs of business. But this feeling of embarrassment quickly wears away with those who deal at this bank; at least we try to have it so; we want every customer to feel easy and at home.

CITY DEPOSITARY.

SAVINGS BANK OF NEWPORT.

At the annual meeting of the Savings Bank of Newport held Friday, July 17, 1908, the following officers and trustees were elected for the year ensuing, viz:

President—J. Truman Burdick.
Vice President—Henry C. Stevens.
Trustees—Thomas A. Lawton, Albert K. Sherman, William K. Covell, William Paine Sheffield, William H. Hammett, Peter King, Alex. N. Barker, Anthony Stewart, William P. Buffum, William P. Carr, William A. Sherman.

At a quarterly meeting of the trustees of the Savings Bank held on the adjournment of said annual meeting, the following officers were elected for the year ensuing, viz:

Treasurer—Grant P. Taylor.
Assistant Treasurer—Harry G. Wilks.
Secretary—Wm. H. Hammett.
Bookkeeper—Edwin S. Burdick.
Counsel—Clark Burdick.
Auditing Committee—Henry C. Stevens, J. Truman Burdick.
Standing Committee—J. Truman Burdick, William H. Hammett, Alex. N. Barker, Albert K. Sherman, Wm P. Carr.

WM. H. HAMMETT, Secretary.

A PYTHIAN "CAPTAIN DREYFUS".

Chicago Man Reinstated After Suffering Unjustly Seven Years.

CHICAGO, Aug. 19.—John A. Hinsey, the "Captain Dreyfus" of the Knights of Pythias, after suffering for seven years expulsion from his lodge and a charge of embezzling $500,000, has been exonerated and reinstated. Hinsey, who is head of the claim department of the Chicago Milwaukee & St. Paul railroad and was at one time a political power in Milwaukee, was restored at the recent biennial convention of the Pythians in Boston. The official action of the order was announced here last night.

The charges against Hinsey were made by Ogden H. Fethers, of Janesville, Wis., when Fethers was supreme chancellor. Hinsey was indicted and charges preferred against him in his lodge. He fought the indictments and they were quashed and all the subsequent civil suits which were started he either won or they were dismissed. Throughout it all he had one friend—John C. Burns, also of the Chicago, Milwaukee & St. Paul railroad. Mr. Burns worked constantly to have the whole affair investigated. The end came at the Boston convention on a final roll-call, which resulted 99 to 50 in Hinsey's favor. On a viva voce vote following Hinsey, after a seven-year fight against degradation, was restored to all the rights and provisions and his former good standing as a true knight of Pythias.

PROF. ELMER,

The most remarkable Clairvoyant and palmist of modern times. So marvelous and dumbfounding are his readings of human life that people exclaim: "Truly the days of the ancient prophets have returned." He calls you by name, tells object of your visit, gives names, dates, locations etc., concerning any one or anything. He develops mediums, reunites the separated, causes a speedy and happy marriage with the one of your choice, removes evil influences, develops personal magnetism and the power to control and influence others, even though miles away. His information is clear and accurate on business, love, marriage, divorce, charges, courtship, health, lawsuits, travel, property, family difficulties, etc. His predictions are authentic and his advice reliable. He may be consulted by any one in trouble or doubt of any character concerning any important matter of life. His information and advice are clear, concise and to the point, fee and $1.00, 10 A. M., 9 P. M. Sundays included.

NEWPORT TRUST COMPANY

New Safe Deposit Vaults.

We are pleased to inform the public that our present Safe Deposit Vault has been patronized to such an extent, by all classes, that we have been obliged to contract with the Mosler Safe Company, for a new fire and burglar proof steel vault, which will make our storage capacity over twice its present size, so that we may be able to accommodate all storage that may be left with us for safety. Kindly inspect the construction of the vault, as it progresses, so that you may know the quality of the same.

Aquidneck National Bank.

FINANCIAL.

NEW YORK, Aug. 19, Wall Street. The stock market opened steady with Amalgamated Copper at 78¾, American Smelting 88, American Locomotive 56⅛, Anaconda 47¼, Baltimore & Ohio 93½, Brooklyn Transit 53, Erie 23⅞, Great Northern preferred 136⅜, Louisville 110, Missouri Pacific 56¾, Missouri Kansas & Texas 31¾, National Lead 85½, New York Central 105, Northern Pacific 143¼, Pennsylvania 124, Rock Island 17⅞, Reading 124, St. Paul 143¼, ex dividend, Sugar 135, Southern Pacific 97⅜, Union Pacific 157, United Steel 46½, Wabash 12½.

10—Speculation began at the stock exchange with scarcely any variation in prices from yesterday's close. Business was also unusually small. American Smelting gained ¾, which was the widest fluctuation noted.

11—Small buying orders were executed and slight advances resulted. Speculation in the main, however, was uninteresting, the traders apparently being disinclined to do much on either side of the market. The local traction stocks were sold on the unfavorable financial statement rendered to the court by the receivers of the Metropolitan system.

Noon—Money on call steady, at 1 per cent; prime mercantile paper, 3 to 4 per cent. Increasing strength was shown by a number of stocks, including a few of the usual leaders, but the general demand was limited. The market was running off at 12 o'clock, a one-point advance in American Smelting, Reading and Union Pacific being cancelled and New York Central selling as much below yesterday's closing. Bonds were irregular.

SENT BLACK HAND LETTERS.

John Fogarty, Employe of Mrs. G. B. Perry, Arrested.

Demanded $1,000 Under a Threat of Shooting If Not Forthcoming.

Newport has had a Black Hand Society outrage, and through the Pinkerton detective agency and the post-office inspector, John Fogarty was yesterday afternoon arrested, taken to Providence, arraigned before United States Commissioner William P. Cross and held in $5,000 bail on charge of sending Black Hand Society and blackmailing letters. The story of the outrage dates back to July 20 of this year, when Mrs. Gardner Blanchard Perry, who owns "Montpelier," on Miantonomi avenue, just across the line in Middletown, received a letter demanding $1,000 and signed Black Hand Society. The letter was not mailed but was pushed under the door of Mrs. Perry's house. It was in pencil and read as follows:

"We want $1,000 in money. Put it in a hole you will find near the front gate post. We want it there at nine o'clock sharp Monday night. Wrap the money in paper. If you squeal to the police it will do you no good. We want the money or your life. There is five men watching your place for the last two weeks and they know that there is only two men on the place at night. They are seen going in every night. One of them sleeps in the stable, so the men that are watching are on to everything. If the money is there nothing will happen to you and we will not bother you any more. The least you say to anybody about it the better.

"Black Hand Society."

Mrs. Perry reported the case to the Pinkerton agency at Boston, and George E. Leith, general superintendent, assigned Assistant Superintendent Joseph P. Colbert to the investigation. A second letter was received by Mrs. Perry July 26, having been mailed at Newport July 25, which was in the same handwriting, in pencil, and read as follows:

"If the money is not under the stone you will find in the lane by Sunday night your house will be blown to hell and every one in it. This will be the last time you will be told. I suppose you have got the police watching for us. I got the report that there was some one seen around there. If they are, so much the worse for you, for we will put a bullet in you when you least expect it. We will get you when you are out in your carriage.

"Last Time."

Superintendent Colbert, after making a preliminary examination came to the conclusion that the letters had been written by some one who was well acquainted with Mrs. Perry's residence, and possibly by one of her employes. He carried on his investigation by the process of elimination, and August 5 secured a specimen of Fogarty's handwriting and compared it with the letters, finding that the penmanship was similar to that in the two Black Hand letters. The case was then referred to Postoffice Inspector Lawrence Letherman, in charge at Boston, who assigned Inspector C. E. Jennings to assist Superintendent Colbert in the further investigation.

The evidence was submitted to United States District Attorney Charles H. Wilson in Providence, who yesterday advised the arrest of Fogarty. United States Commissioner William P. Cross issued a warrant to Superintendent Colbert, and United States Marshal Daniel R. Ballou and Inspector Jennings continued the investigation here. Fogarty was interviewed and other specimens of his handwriting were secured, all of which tended to strengthen the evidence against him. He was then formally arrested by Marshal Ballou, taken to Providence, arraigned before Commissioner Cross and held in $5,000 for trial.

It is not known whether Fogarty represented himself alone or some other branch of the Black Hand Society, although a number of his associates are under surveillance. It is enough for the authorities at present at least, to have secured the arrest of the man and broken up what they believe to be an attempt at blackmail and extortion. They will push the matter to the utmost, and believing that they have a complete case against Fogarty will see that he suffers to the full extent of the law.

Since receiving the first letter Mrs. Perry has had no fear regarding the threats and has gone about her affairs in her usual way, driving out and attending to her social duties.

Fogarty was formerly in the army and served in the Philippines. He was lodged in the Central Police Station, Providence, last night, but when United States Marshal Ballou placed him in charge of the police there he suddenly discovered that the handcuffs which were used in bringing him from Newport belonged to the secret service men and he had forgotten to take the key. Fogarty appeared to be much disturbed at the prospect of sleeping with the irons on. After considerable searching by the police they succeeded in finding a key which would unlock the irons and he was given the freedom of his hands for the night.

THE DU PAIS-IVES ENGAGEMENT.

The engagement is announced of Mrs. Elizabeth Hunt Ives to Mr. John du Pais of New York, son of the late [illegible] and Louise Sterry du Pais. Mr. du Pais is a well known [illegible], having left the Union Club of New York and other well known [illegible] in this city, Rochester and [illegible]. Both his mother and sister [illegible] within the past five months, and the wedding will be very quiet [illegible] early in October. Mrs. [illegible] is a daughter of the late John [illegible] and Elizabeth [illegible] of New York and the [illegible] Mr. du Pais is a member of the [illegible] University and [illegible] of New York, the [illegible], the Society of the [illegible] and the Society of the War of 1812, and a graduate of Harvard in the class of 1877.

A BIG POLO DAY.

Old-Time Players and Sportsmen Gather to See Games.

Play Rather a Disappointment, the Myopias Being Outclassed by New Havens.

The regular program was in order at the Westchester Polo Club grounds, and two games were played as scheduled. They were played off fast and the last game was over before 6:30, so early that all the spectators were able to remain to the very end, and there was no rush about leaving. This made things seem much better than when people had to leave an interesting game simply because it began so late and continued so long that they could not wait for the end. Yesterday both games were only about half an hour late in starting, but under the new rules the play was swifter and the game seemed to be going faster and as a matter of fact was faster than under the old rule.

It was the big day of the week so far as social attractions went. The management, in anticipation of a big gathering, had the Newport Band on the ground and it played before and during the game. Apparently everyone was there. Of the old-time polo players there were Stanley Mortimer, Joe Stevens, R. L. Winthrop, Jr.; T. A. Havemeyer and others, and of the present generation of polo players there was a full supply. There were many from the tennis players. C. Oliver Iselin and others represented the yachting interests, and about everyone represented society in its various ramifications. There were present not only those who take a delight in being there about every day, rain or shine, but others who had not been on the grounds in years and seemed as much at home as ever. Then there were the photographers who try to snatch portraits of society people during the mix-up which always comes when there is a big gathering in the club house enclosure.

The play was in a sense a disappointment. It was not expected that the match for the Brenton's Reef cups would show fast polo, but it was felt that Myopia would make a good showing, for Myopia has been bringing up some good players lately. However, they were outclassed in size by the New Haven team, which played a game reminding one of the old days when Bud Appleton and Gus Gardner were playing football polo for Myopia. There were more fouls to the minute than the Westchester Club grounds ever saw. There was not much enjoyment in seeing such a game and the little fellows from Myopia were hustled about in all sorts of shape, but they kept pegging away, pluckily. One of the players was Norman Prince, a grandson of the late George H. Norman. Captain the Hon. Dudley Carlton played with Myopia also, and was the only one heavy enough to withstand the rough play of the New Haven team. New Haven received two goals as a handicap and thereafter made two, losing one half for a foul committed by a New Haven player but charged up to Mr. Phipps. New Haven, by steady work rolled up a score of a dozen goals, all of which could easily have been taken away if the fouls made were charged to them. The sides:

New Haven—J. R. Thomas, Jr., 2; C. P. Beadleston 1, F. S. Butterworth 3, M. Stevenson 0; total 6.

Myopia Freebooters—N. Prince 1, Childs Frick 1, H. Phipps 1, Captain Carlton 1; total 4.

Referee—L. E. Stoddard.

Side	Made by.	Time.
Myopia,	Mr. Frick.	1:41
New Haven,	Mr. Butterworth,	1:51
Myopia,	Mr. Phipps,	2:38
New Haven,	Mr. Thomas,	3:00
New Haven,	Mr. Stevenson,	1:10
New Haven,	Mr. Thomas,	7:07
New Haven,	Mr. Thomas,	1:23
New Haven,	Mr. Thomas,	16:50
New Haven,	Mr. Thomas,	6:00
New Haven,	Mr. Butterworth,	1:07
New Haven,	Mr. Beadleston,	2:46
New Haven,	Mr. Butterworth,	1:10
New Haven,	Mr. Beadleston,	2:46
New Haven,	Mr. Beadleston,	1:12

Myopia received 2 goals by handicap, scored 2, lost ½ on foul, net score 3½. New Haven scored 12 goals.

There was a delay of half an hour for the big teams to get to work, and then Bryn Mawr and Myopia First came out to play the second match for the Westchester Club cups. Bryn Mawr had a good team on the card, but when the players came out it was found that Alex Brown was the only Bryn Mawr man on the team, which was in fact a picked team and not a representative of the club which has put out so many good players. Myopia played the straight nominated team, but they appeared in a sort of Harvard uniform of bright crimson, with yellow boots in place of the usual modest light blue with white boots. It is not likely that the uniform had anything to do with it; lack of practice seems to have been the trouble, for after taking the first goal Myopia never had a real look in until the very end of the game, when it appeared as though the first and last goals were going to the crimson players; but the picked team would not have it and so Myopia had to be content with one lone tally.

Mr. Agassiz at times played with his old-time vim, there were occasions when Mr. Tweed showed why he was handicapped for four goals, and occasionally Mr. Ames really got into the game for a minute or so. On the other side everyone played hard, perhaps a trifle too hard at times, for the game was pretty rough and there was a great deal of foul work done, but no foul was called until just at the end. At back Mr. Stoddard was a tower of strength and nothing seemed able to pass him. His backing, either side, was accurate and it seemed impossible to ride him off. In riding all seemed to excel the Myopia players, except when Mr. Agassiz seemed determined to show that Myopia is not always slow. Mr. Brown was as usual fast and rode about in such a way that the Myopia back was fairly smothered. The sides were:

Bryn Mawr—Alex Brown 4, L. Shaw 2, H. Drury 5, L. E. Stoddard 5; total 16.

Myopia—Adelbert Ames, Jr., 4; Harrison Tweed 4, R. L. Agassiz 5, P. S. Van Stade 3; total 14.

Referee—Sidney C. Love.

Goals were made as follows:

Myopia,	Mr. Tweed,	2:50
Bryn Mawr	Mr. Stoddard,	2:28
Bryn Mawr,	Mr. Shaw,	9:37
Bryn Mawr,	Mr. Drury,	1:05
Bryn Mawr,	Mr. Brown,	10:10
Bryn Mawr,	Mr. Brown,	1:55
Bryn Mawr,	Mr. Drury,	12:22
Bryn Mawr,	Mr. Drury,	5:50
Bryn Mawr,	Mr. Brown,	3:22
Bryn Mawr,	Mr. Brown,	4:07
Bryn Mawr,	Mr. Shaw,	1:37

Bryn Mawr received 2 goals by handicap, scored 10 by play, lost 3, on safety and foul; net 12½. Myopia scored one goal.

The play tomorrow will be the third event for the Brenton's Reef cups, the contestants being the Great Neck team, not announced, and the New Haven team winners in the first match yesterday.

AT MRS. ZABRISKIE'S.

Reception and Musicale the Social Event of Yesterday—Other Entertainments.

Mrs. and Miss Zabriskie gave a reception and musicale yesterday afternoon at their residence on Rhode Island avenue, the program for the musicale being as follows:

a. Under the Juniper Tree Hollander.
b. Vainka's Song Fred J. Whishaw.
c. Persian Love Song Burmeister.
Mrs. Nagel.
Souvenir de Moscou Wieniawski.
Mr. Sokoloff.
a. Traumdurch die Dammerung R. Strauss.
b. Parla Arditi.
Mrs. Nagel.
a. Humoreske Dvorak.
b. Zigeuner Tanz Nachez.
Mr. Sokoloff.
a. Summer Night Goring Thomas
b. Bliss Vanderstucken
Mrs. Nagel.
a. Nur werdie Sehnsucht Kennt Tschaikowsky.
b. Spring Song Weil.
Mrs. Nagel.

With violin obligato by Mr. Sokoloff, Mrs. Rudolf Nagel's songs were given with charming sympathy and distinctness of enunciation, and her success was unequivocal. Mr. Sokoloff won recognition as a violinist of exceptional talent. His numbers being played with artistic skill of a high degree. Mr. J. Hazard Wilson ably assisted by his tasteful accompaniments.

Mr. and Mrs. Joseph S. Stevens gave a luncheon at the Little Hilltop cottage in honor of Lady Augusta Fane, who is guest of Miss Bancroft. The guests included Miss Bancroft, Mrs. Henry Clews, Mr. and Mrs. C. Oliver Iselin, Mr. and Mrs. Herbert T. King, Captain Smith and Messrs. Stanley Mortimer and J. D. R. Baldwin.

Dinners weer given last evening by Mrs. J. Laurens Van Alen, Mrs. David King, Mrs. Philip M. Lydig, Mrs. Ogden Mills, Mrs. Royal Phelps Carroll, Mrs. W. P. Fullum, Mrs T. Shaw Safe, Mrs. E. C. Knight, Jr., Mrs. Henry S. Redmond, Mrs. C. F. Hoffman, Mrs. H. Anthony Dyer. Mr. and Mrs. George J. Gould entertained at dinner on their yacht.

MR BOONE TO LEAVE CITY.

Organist at Zabriskie Memorial Church Accepts a Position in the Oregon State College.

Mr. William H. Boone, who has been organist and choir master at the Zabriskie Memorial Church for the past 10 years, has resigned to accept a position as head of the piano department at Oregon State College, Cowalis, Oregon, entering upon his new duties in October.

Mr. Boone has held a prominent place in church music in Newport for many years. He entered the choir of St. George's Church when a boy, and was for a time soprano soloist. Under the direction of G. Everett Hill he took up organ music and soon became his assistant officiating as organist for the choir guild. At the age of 16 he became organist of Trinity church, and two years later was appointed organist and choir master at the Zabriskie Church.

Mr. Boone has given the music-loving people of Newport many enjoyable recitals and has acted as accompanist at a number of public and private musical entertainments, appearing frequently as solo pianist and accompanist at recitals given at the summer residences. He has been prominent in masonic circles holding official positions in St. John's Lodge, and is at present high priest of Newport Chapter, Royal Arch Masons. He also holds an official position in Newport Lodge of Elks.

IN "A KNIGHT FOR A DAY."

"A Knight For a Day," is one of the most successful musical pieces of recent years and its long-run record excels perhaps that of any gaiety of the past decade. Six hundred and seven nights in Chicago, all last season at Wallack's Theatre in New York, and all this summer at the Tremont Theatre, Boston, have been its good fortune thus far. All three cities have been enthusiastic in praise of its wit, its melody and its visual charms.

May Vokes is the production's big feminine head, and Comedian Frank Deshon its low comedy man. Miss Vokes, as Tillie Day, a "servant lady" at a girls' college in Illinois, and Comedian Deshon, as the bogus knight, are said to keep their audiences laughing every moment they are in view.

Two spectacular sensations are credited to the production:—one, a giant see-saw of many beams, a thousand lights, and scores of teetering tom boy girls; the other a giant curtain, whose fabric is electricity, woven in tiny incandescent vari-colored crystal bulbs.

READING ROOM ELECTION.

At the annual meeting of the stockholders of the Newport Reading Room this morning Pemberton H. Powel, Wolford Norman, William R. Hunter and J. Thompson Spencer were elected governors to serve three years. After the stockholders' meeting the governors elected the following officers for the year:

President—DeLancey Kane.
Treasurer—Pemberton H. Powel.
Secretary—Roland King.
Executive Committee—DeLancey Kane, Louis L. Lorillard, Maximilian Agassiz.

NEWPORT SHUT OUT.

Unable to Hit Effectively the Cuban Star Pitcher.

Training Station Beats Old Colony In the Darkness of the Last Inning.

The Cuban Stars again won from the Newports yesterday shutting out the locals and making four runs. The Newports were unable to hit effectively the Cuban pitcher, Mendez, who struck out nine and allowed only four hits, two of which were of the scratchy order. The Cubans batted Mulvey quite effectively, enough at least to secure one run in each of four innings, one a home run by Govantes in the third inning. Newport had men on bases in three innings, but could not make the hits necessary to secure runs, as the Cubans were playing a sharp fielding game, finishing without an error.

For Newport A. Sullivan played a good game, having three put-outs and four assists. Cobbitt also fielded well, although he made two errors on seven chances. Delaney, who had a sore arm, retired from the catcher's position in the fourth inning, and P. Sullivan finished the game. He made a good showing in this position, throwing to bases well. The score is as follows:

Cuban Stars.

	a.b.	r.	lb.	p.o.	a.	e.
Bustamente, s. s.	5	1	1	4	1	0
Figarole, c.	4	0	0	9	2	0

Cuban Stars 1 1 1 0 0 1 0 0 0-4

Two-base hit—Minoz. Home run—Govantes. Stolen bases—Parpetti 2, Mendez, Hernandez; Langley, A. Sullivan, Mulvey. Bases on balls—Mendez 2, Mulvey 3. Struck Out Mendez 9; Mulvey 4. Sacrifice hits—Figarola, Hernandez, Gonzales; Milan. Double plays—Mendez—Bustamente—Parpetti; A. Sullivan—Milan. Hit by pitched ball—Parpetti; Milan. Passed ball—Figarole. Umpire—Huntington. Time 1 hour 50 min.

At the Basin yesterday the Old Colony and Training Station teams played a great game which the latter won in the darkness of the last inning. Really the game should not have gone past the seventh inning, at which the score stood 1-1, which shows that both pitchers were on their mettle and the fielding was fast and accurate. As a matter of fact, the Old Colony's fielding was perhaps the best that team ever showed, four fast double plays being put in to discourage the Training Station runners. Of course, when it is said that the Old Colony played a great game it naturally follows that the Station men were putting up a fine article of ball, to keep in the running. The game was played in the same sportsmanlike manner which has marked all the contests between these teams and lovers of the game enjoyed the fine exhibition.

Mahoney seemed to have a shade the better of Sullivan in the pitching line, but honors were about even. In the eighth and ninth, when the runs came in, the men really were not able to field properly and those runs should not be charged to either pitcher. The score:

Innings	1	2	3	4	5	6	7	8	9	
Training Station	0	0	1	0	0	0	0	0	5	—6
Old Colony	0	0	0	1	0	0	0	2	0	—3

Batteries—Mahoney and Eyslinger; Sullivan and Carr. Hits, 9-6; errors, 4-2. Struck out—By Mahoney 8; by Sullivan 6.

At the Basin tomorrow the Old Colony and Torpedo Station teams will play in the City League series.

3-Piece COMBINATION GARMENT

consisting of a corset cover, skirt and drawers. The skirt and drawers are practically one, the former forming the latter in the joining and these are attached to the corset cover with body held with ribbon as desired.

To stout women this combination garment is a boon for fitting the figure like a glove. It reduces the size of hips and waist and does away with much superfluous attire and is also the only known garment over which a princess gown can be worn with perfect satisfaction, and imparts a graceful outline not possible in separate garments. Soft nainsook, cambric, handkerchief linen, fancy lawn and silks are used in making. Fine laces, embroidery with different shades of ribbon lend a note of daintiness.

The prices range from

$2.25 Up.

147 Thames Street.
